A TRAITOR IN CAMP

Proof Found of Treachery Among the Allies in Chinese Viceroy's Papers.

CONGER AGAIN APPEALS FOR AID.

New York, Aug. 7.—A dispatch to the Journal and Advertiser from Shanghai says:

Colonel Meade, of the marine corps, has received by native courier a message wrapped in pigskin signed by Minister Conger as follows:

"Help at once if at all. Besieged in British legation. No government Pekin except military chiefs, who are determined on destruction foreigners."

The Shanghai correspondent also says that in the papers of the viceroy at Tien Tsin was found a receipt for one hundred taels paid to the boxers for the head of Major Waller, of the United States marines, who was killed at the first battle of Tien Tsin.

Rev. Dr. Evans, an English missionary, searched the yamen of the Tien Tsin viceroy and found in his private papers full accounts of the doings of the foreign forces during the siege, with lists of their killed and wounded.

He also found promises of pensions to the families of all slain boxers.

He found receipts for arms and ammunition from each village. This is proof of the official nature of the boxer movement, and also of the treachery of some one in the ranks of the allies.

The Chinese left five million taels in the treasury in Tien Tsin.

From a trustworthy native source it is learned that General Ma was murdered by a boxer. There are 30,000 troops at Tang Tsun under General Sung, 40,000 at Pei Tsang under General Tung-Fuit-Siang, 40,000 at Pekin already and more arriving daily, and 60,000 in camp twenty miles west of Tien Tsin.

LITTLE NEWS GETS THROUGH.

London, Aug. 7.—The special dispatch to the Associated Press from Tien Tsin, dated Sunday, August 5, 8 a. m., via Shanghai, August 7, is the only press message which has been got through from Tien Tsin since the battle at Peitsang. Various Tien Tsin dispatches of earlier dates allude to reconnoitering encounters with the Chinese preparatory to a general attack on the Chinese positions, which are five miles long. The reconnoisance has developed that the Chinese are in greater strength than expected and the allies, according to a news agency dispatch from Tien Tsin dated August, are each day pushing nearer to the Chinese positions.

The Russians who have been fighting around Tasi-Chow, are reported according to a dispatch from Shanghai, dated August 6, to have killed 3,000 Chinese.

The taotai of New-Chwang has refused the Russian demand to give up the forts there.

A dispatch from Hong Kong, under today's date, says trade with the West river is at a standstill.

It is now fully confirmed that a fourth brigade of Indian troops has been ordered to China.

LI'S REPORT UNCONFIRMED.

London, Aug. 7.—The parliamentary secretary of the foreign office, Mr. Broderick, in the house of commons today, answering a question, said her majesty's government had informed the Chinese government that its members will be held personally responsible if the members of the foreign legations or if other foreigners at Pekin suffer injury.

Mr. Broderick added that her majesty's government did not think any useful purpose would be served by further communications.

Answering another question, Mr. Broderick said her majesty's government had no confirmation of the statement attributed to Li Hung Chang to the effect that the foreigners had left Pekin for Tien-Tsin under escort.

SAYS MINISTERS LEFT PEKIN.

London, Aug. 7.—4 a. m.—A Shanghai special, dated August 6, says:

"Li Hung Chang has officially informed the consuls that the ministers left Pekin for Tien-Tsin last Friday, August 3, with General Yung Lu in command of the escort. The consuls are by no means disposed to credit Earl Li's statement."

All other reports that have reached London up to this hour indicate that the ministers have not left Pekin.

WOKING UNDER OLD ORDERS.

Washington, Aug. 7.—It is said at the state department that the reports from Constantinople that Mr. Griscom, the American charge d'affaires, is renewing the request for a settlement of the American claims, are due to the original instructions from Washington and not to any recent word to him. These instructions were to the effect that the matter be pressed continually, about every fortnight, in order that there might be no lapse of the negotiations. Mr. Griscom appears to be keeping up the semi-monthly reminder with great regularity, as word comes about every two weeks that he has presented another demand. They are all to the same effect, that a settlement be made and an exact time fixed for carrying it out.

MR. WU TO RETURN.

Washington, Aug. 7.—A message has been received at the Chinese legation saying that Minister Wu, who has been spending several days at Cape May, will return to Washington this afternoon.

FRANCE WITHOUT NEWS.

Paris, Aug. 7.—At a cabinet council today it was announced that the French government had received no advices tending to show that the advance of the allied forces on Pekin had been decided upon.

ANOTHER SMALL DIVIDEND.

New York, Aug. 7.—The directors of the Standard Oil company, of New Jersey, have declared a dividend of $8 per share, payable September 15. In June 10 per cent. was distributed and in March 20 per cent.

WILL HOLD A RACE MEETING

E. G. CONNOR IS SATISFIED WITH THE OUTLOOK.

The Races Will Occur During the Week of September 17—Money in Sight.

Fort Wayne is to have a big race meeting next fall and the fastest horses in the United States are certain to contest. E. G. Connor, secretary of the Detroit Driving club, arrived in Fort Wayne yesterday, and in company with a local committee visited the merchants and met with enough encouragement to guarantee a race meeting. Mr. Connor asked for $1,500 from Fort Wayne citizens, to which he agreed to add $500 and give two merchants' stakes. More than $1,000 of the $1,500 has been subscribed and several citizens have guaranteed the balance, which they hope to collect from the business men. Mr. Connor is arranging to open an office in Fort Wayne and during the next five weeks will make Fort Wayne his headquarters. He will send representatives to all the big trotting meetings and has received assurances already from horse owners that they will enter here. The track has a national reputation, as it was here Robert J. paced the mile that dethroned Mascot as king of side-wheelers. Cheseeus still holds a world's record made on the Fort Wayne track, and many other great horses made their first reputations on the local track. The stakes offered will be of $300 and $1,000 each. There will be eighteen or twenty races.

BADGER STATE REPUBLICANS.

Milwaukee, Aug. 7.—Wisconsin republicans are gathering in Milwaukee in large numbers today preliminary to the state convention, which meets tomorrow to select a complete state ticket. Robert M. LaFollette, the former congressman of the Second district, will receive the nomination for governor without opposition, and the balance of the ticket will be made up of present incumbents. One of the chief features of the platform to be adopted is a plank which will probably be inserted advocating the enactment of a law at the meeting of the next legislature favoring nominations ofstate officers by a direct vote of the people.

THREE KILLED IN A WRECK

DISASTROUS MISHAP ON THE MONON ROAD.

Passenger Train Derailed Near Lafayette and Many are Injured Besides Those Killed.

Lafayette, Ind., Aug. 7.—At South Raub, ten miles south of here on the Monon road, passenger train No. 3 collided early today with a freight engine and caboose standing on the side track. The passenger was running twenty-five miles an hour when the crash came.

Charles King, the brakeman who operated the switch, is missing, but whether his body is under the debris, or whether he fled, is not known.

DEAD.

Lewis Raub, freight engineer.
Thomas Craft, freight fireman.
Joseph Hudlow, passenger fireman.

Seriously injured—Henry W. Whitsell, passenger engineer; Eugene McCool, freight brakeman; Stephen Friely, Chicago, traveling man; W. N. Tyson, Crawfordsville.

Slightly injured—J. F. Pope, of Williamsport; Mrs. Daniel Schrader, of New Albany; Charles Davis, of Crawfordsville; Daniel Schrader, of New Albany; C. H. Callahan, of Bloomington, freight conductor; Victor Belecher, freight brakeman, and Mrs. Louis Woodson, of Chicago.

GOLD GOING TO LONDON.

New York, Aug. 7.—Baring, Magoun & Co. have arranged to ship $2,000,000 in gold to London tomorrow. This amount may be increased. A representative of the firm explains that a part of this shipment is to meet the requirement for deposits of 5 per cent. of subscriptions for the war loan, but a part of the shipment is also a regular exchange operation. It was announced here today that subscriptions to the British war loan had closed in London, and as a consequence no more would be received here.

KILLED ONE; OTHER WILL DIE.

Cincinnati, O., Aug. 7.—John W. Jolly, of Newport, Ky., this afternoon shot and killed Lottie Kleekamp, his wife's sister, and mortally wounded his wife at the home of their parents at Ninth and Overton streets, Newport, Ky. A family quarrel caused the tragedy.

GENTRY AND PATCHEN TO RACE

Olean, N. Y., Aug. 7.—The special races have been arranged for Thursday at the new track of the Jersey Farm association. John R. Gentry and Joe Patchen will contest in one and Coney and Anaconda in the other. Purses of $2,000 have been hung up for each race.

HOLDING THE INQUEST.

Acting Coroner Dr. C. E. Barnett is this afternoon holding an inquest in the case of Edward Schwier, who met death by drowning in the Maumee river Sunday afternoon.

Knights and Ladies of Honor have sold 500 tickets for the social at Elektron building tomorrow evening. The program will include a cake walk by Mr. Newhouse and Miss Suttonfield and by twin girls, and a dance after refreshments.

Mr. and Mrs. A. W. Paine, who have been the guests of Mrs. Paine's parents, Mr. and Mrs. B. W. Skelton, have returned to their home at Toledo.

Mr. and Mrs. C. E. Jenne have as their guest Mrs. Robert Bender, of Antwerp, Jefferson county, N. Y. The ladies are sisters and have not

Mr. and Mrs. W. W. Williamson, of Columbia City, are guests at the New Aydlett.

WILLING TO QUIT

PRESIDENT KRUGER SAYS HE WILL SURRENDER.

ANXIOUS TO END THE WAR

WANTS PLEDGE OF ULTIMATE DESTINATION.

BOERS IN PITIABLE PLIGHT

HARRISMITH TAKEN BY GEN. HECTOR M'DONALD.

Pretoria, Monday, Aug. 6.—It is stated positively that President Kruger is willing and anxious to surrender, provided a satisfactory promise is given as to his ultimate destination.

BOERS IN DESPERATE PLIGHT.

New York, Aug. 7.—A dispatch to the Herald from London says that a Lourenzo Marques correspondent of the Daily Telegraph states that a Frenchman just returned from the Boer frontier confirms the telegrams which have been received during the last few days describing the pitiable character of the Boer position. General Botha's commando, originally 750, now consists of only sixty-three, and other commandos have been reduced in like proportion, owing to desertions. The remaining burghers have divided into two parties, one for peace and the other for war.

The peace party is the stronger.

MACDONALD'S SUCCESS.

Cape Town, Aug. 7.—Railway communication with Natal has been re-established by General MacDonald's capture of Harrismith. Heavy fighting at Eland's river commenced on Sunday and continued Monday. No details are obtainable, but it is believed that General Carrington and Gen. Ian Hamilton relieved the garrison at Rustenburg, which is retiring to Serust.

ROBERTS MAKES REPORT.

London, Aug. 7.—Lord Roberts reports to the war office, under date of Pretoria, Aug. 6, as follows:

"Harrismith surrendered on August 4. The neighboring country seems to be kept. Kitchener is with the force south of the Vaal river.

"He was joined yesterday by a strong detachment of Brabant's horse and the Canadian regiment.

"The Boers attacked the garrison at Eland's river on the morning of August 4. Information was sent to Carrington, who was on the way to Eland's river.

"Ian Hamilton, who reached Rustenburg yesterday, reported hearing heavy firing in the direction of Eland's river.

"Today the firing seems more distant, which looks as if the Eland's river garrison had been relieved and was retiring towards Serust."

COLONIES IN FULL ACCORD.

London, Aug. 7.—The secretary of state for the colonies, Mr. Chamberlain, in reply to a question in the house of commons today, said he had already made himself acquainted with the views of Canada and Australia in regard to the main points of the South African settlement. He added that they were completely in accord with her majesty's government as to the necessity for the annexation of the Orange Free States and the Transvaal to the British empire, and the establishment of a government, supported by a military force, with the ultimate extension of representatives of the government.

WELL-KNOWN LADY DEAD.

Mrs. John McFadden died Sunday at her home in Bluffton at an advanced age. Mrs. McFadden was the wife of a pioneer business man of Bluffton, and had a wide circle of acquaintances. The funeral services were held today. The deceased was an aunt of Mrs. G. B. Hench and Miss Lena Provines, of this city.

POLICE COURT.

A trio of drunks confronted Mayor Scherer in police court this morning. Jack Devany had been arrested while drunk on a suspicion of having stolen a pick and shovel from Hattersley & Sons. He was fined on the charge of drunkenness and the larceny charge was not pressed. He went to jail. Jack Case was also sent to jail on a charge of drunkenness. John Murphy, who had also been indulging too freely, was released.

EMPLOY NEW ENGINEER.

Chairman Eggemann, of the board of public works, has returned from Chicago, were he arranged for Engineer Scott, an employe of the windy city, to come to Fort Wayne at intervals during the construction of the big sewers and give the lines in the tunnels to the workmen. Mr. Scott has had experience in tunneling and has tools which will permit him to make the measurements satisfactorily. Unless used to tunnel work it is impossible for a person to stay underground and, therefore, it was necessary for the city to employ another engineer.

DIVORCE CASE STILL PENDING

WIFE CLAIMS HUSBAND HAD NO AUTHORITY TO DISMISS.

Francis E. Farra Makes Affidavit That Wife Agreed to Dismissal—Court Notes.

A few weeks ago Francis E. Farra was made defendant in a divorce suit commenced by Rosanna Farra, and a few days later the husband appeared in court, paid the costs and Judge Vesey dismissed the case. The Sentinel printed an item noting the dismissal, and the wife then went into court and denied that she had agreed to dismissal. Judge Vesey ordered the case replaced on the docket. Today the husband, through his attorney, R. B. Dreibelbiss, filed an affidavit in court explaining that after the commencement of the divorce suit he had held a conference with Mrs. Farra and agreed to pay her $250 to dismiss the suit and pay the costs. After she had received the money she failed to see an attorney and make a written agreement. The case, of course, is still pending and as it is the third time the couple have been the principals in a divorce suit the judge will probably have an opportunity to hear evidence and settle their marital troubles.

NOTES.

The county commissioners have granted to the New Haven Telephone company a franchise including the right to construct lines from New Haven to Gar Creek, Shirley City, Baldwin, Edgerton, Adams station, Maples, Geoglein, Harlan, Cedarville and Leo. George W. Miller, president of the New Haven company, made the application.

Judge Vesey gave judgment for $300 against Christian Bohn in favor of William A. Bohn.

Judge Vesey yesterday admitted Edwin M. Hulse to practice at the Allen county bar.

Motion for a new trial has been filed in the divorce case of Flora B. France vs. Philip France.

Judge Vesey granted Mary L. Geyer a decree of divorce from William Geyer.

Judge Vesey has decided that Dr. John McCausland shall pay to Mrs. Catherine J. McCausland the sum of $40 a month.

TO CONSECRATE A BISHOP.

Washington, Aug. 7.—Archbishop Martinelli, the papal delegate, has been invited to attend the consecration of Bishop-elect Henry Moeller, of Columbus, Ohio, on August 15, but owing to other duties, he probably will be unable to participate in the brilliant festivities, which will bring together many prelates of the country. Dr. Moeller succeeds the late Bishop J. Ambrose Watterson, who died last year.

HAND BADLY CUT.

W. F. Bertram, a truckman employed in the Pennsylvania freight house, had his right hand badly cut Monday. He was handling some sheet iron when one of the plates slipped. Mr. Bertram attempted to grasp it, and the sharp edge made a cut across the palm to the bone. Dr. E. J. McOscar sewed up the injury.

MARRIAGE LICENSES.

Johnson L. May and May A. Adams.

Buell C. Webster and Jennie Graham.

Miss Georgie Ruhl has returned from a few weeks' visit with friends and relatives in Hoagland.

FROM THE TRENCHES

The Chinese Were Routed by the Advancing Legions of the World's Allies.

CHAFFEE REPORTS THE BATTLE

[Copyrighted, 1900, The Associated Press.]

Tien Tsin, Sunday, Aug. 5, 8 a. m, via Shanghai, Aug. 7.—This morning at daylight 16,000 allies attacked the Chinese at Peitsang and forced the enemy from the trenches. The Americans who participated were the Ninth and Fourteenth regiments, Reilly's battery, and the Marines. A heavy battle is still in progress.

GENERAL CHAFFEE REPORTS.

Washington, Aug. 7.—The war department has received the following cablegram from General Chaffee:

"Che Foo, Aug. 7.—Adjutant General, Washington—Tien Tsin, 3rd.—Conference today decided battle Sunday. Chinese entrenched east and west through Peitsang. Rest of Chinese protected by flooded ground practically unassailable.

"Japanese, English, American forces, about 10,000 strong, attacked Chinese right, west of river, in flank. Other forces, Russian, French, about 4,000 strong, opposite side, between river and railroad. Chinese position apparently strong. Army reported 30,000 between Pebang and Yang-Tsun or crossing of road [illegible] Ho.

"Yang-Tsun objective. Our force 2,000 and battery. Conemaugh arrived.

"Sixth cavalry left at Tien Tsin for guard of city and awaiting mounts. Ministers safe on 28th of July. Chaffee."

HARD FIGHTING AHEAD.

Washington, Aug. 7.—The dispatch of General Chaffee, written before the battle of Sunday, confirms the dispatches received at the navy department yesterday and also the press dispatches received today concerning the attack on the Chinese at Peitsang.

General Chaffee's dispatch, dated Friday, was not sent from Che Foo until today, an inexplicable delay. The most interesting feature of the dispatch is the information regarding the positions of the Chinese army and the fact that the advance upon Pekin is made by two columns, one on each side of the Pei river. The international forces as given by General Chaffee would aggregate about 14,000 men, while the other dispatches say 16,000, but this difference can easily be accounted for, as more men might have been available when the movement began than when the conference was held on the 3d inst.

This conference is supposed to have been between the several commanders present at Tien-Tsin. It is evident that the foreign commanders do not undesestimate the task which they have before them, as the dispatch shows that a thorough reconnoisance of the Chinese position had been made and that even before the advance of the international force from Tien-Tsin the commanders were in possession of full information relative to the Chinese position.

This is one of the most welcome features of the dispatch, as it proves conclusively that the international column did not blunder upon an entrenched position of the enemy.

According to the war department map the town of Peitsang covers both sides of the river, but the main portion of it is on the left side, where the Japanese, English and American forces had arranged, according to General Chaffee's dispatch, to attack the enemy in flank.

The left of the Chinese on the other side of the river, according to the dispatch, was partially protected by flooded ground and practically unassailable for that reason.

According to the map there is a lake five miles from the river at this point and the ground may have been flooded from this lake through the dykes and canals which gridiron the country thereabout.

The Russian and French forces were to attack the enemy's left on the right bank of the river, between the river and railroad. This makes it probable that the flooded district only extended to the line of the railroad, which at this point is about a mile and a half from the river. General Chaffee's dispatch also shows another important feature of the plan of campaign agreed upon by the international commanders.

It is that the present objective point of the column is Yangtsung. This is a railroad town about fifteen miles beyond Peitsang, at the point where the railroad crosses the Pei river from the right on the way to Pekin.

Once in possession of this point the international force would have both the railroad and river in its rear for keeping open communication with Tien-Tsin.

It naturally would become the advance base from which operations on Pekin could be projected. At this point the river veers to the right and from it the column would have to move overland along the line of the railroad. The Chinese evidently are as much impressed with the strategic advantages of Yangtsung as the international commanders themselves, as General Chaffee says in his cable that the enemy is reported thirty thousand strong at the crossing of the road over the [illegible]. Without [illegible] the Chinese force there, [illegible] of Admiral Remey that it would be forced to retreat proves correct, they retired to Yangtsung. There is no information as to the number of the enemy which met the advance at Peitsang, but judging from the casualties to the international force, it must have been large and may perhaps double the Chinese army which the column must encounter when it reaches Yangtsung. The general feeling at the war department is that, unless the Chinese generals have been completely demoralized by the Peitsang attack, there is very severe fighting ahead for the international forces and that the ground will be disputed all the way to Pekin.

RELIEF FORCE CHECKED.

London, Aug. 7.—3:40 a. m.—"The advance of the allied forces commenced today," cables the British consul at Tien Tsin, under date of August 4. This is the first official information received here that the attempt to relieve Pekin has begun. It is accepted as correct.

The British consul does not mention any fighting, but the Shanghai correspondent of the Daily Mail, telegraphing Sunday, says:

"The Pekin relief column is reported to have suffered a check. The Chinese are said to have adopted Tugela tactics, and after several hours of fighting to have retreated."

This is the only message received in London this morning bearing out the reports of Admiral Remey and Commander Taussig regarding an engagement at Peitsang. The fact that the advance did not begin until Saturday is taken to strengthen the accounts of a battle Sunday.

In the same cablegram, which was read in the house of commons, the consul at Tien-Tsin says: "News from the Japanese legation has been received up to August 1."

Therefore the edicts announcing the safety of the ministers on that date are confirmed.

HELD AS ACCESSORIES.

Rome, Aug. 7.—The brother and brother-in-law of Bresci, the assassin of King Humbert of Italy, have been detained by the police on the charge that they had fore-knowledge of the murderer's intention. The former says Bresci frequently practiced with a revolver.

MR. HAY'S ILLNESS SLIGHT.

New York, Aug. 7.—The Evening Post today prints the following from Newbury, N. H., dated last night, from Secretary of State Hay:

"The Evening Post's [illegible] sition is so slight it is not worth mentioning."

BRYAN IN CHICAGO

CANDIDATE IS ON HIS WAY TO INDIANAPOLIS.

MET BY ENTHUSIASTIC CROWD

THRONGS GATHERED AT THE WAY STATIONS.

REFUSED TO MAKE SPEECHES

SAVING HIS VOICE FOR HIS ACCEPTANCE SPEECH.

Chicago, Aug. 7.—Hon. William J. Bryan, democratic candidate for the presidency, arrived in Chicago on the Burlington railroad at 9:30 a. m. today.

He was accompanied by Mrs. Bryan, their son, Governor and Mrs. Thomas, of Colorado, and Col. John I. Martin, sergeant-at-arms of the Kansas City convention. The party was met at the union depot by a local committee, several clubs and a large number of citizens, who gave them an enthusiastic greeting. The party was driven immediately to the Sherman house.

The first public appearance of the day was made by Mr. Bryan at Aurora at 8:20 a. m. He had just finished breakfast when he was called to the rear platform by the cries of a large crowd.

Hon. Samuel Alschuler, democratic nominee for governor of Illinois, greeted Mr. Bryan and was invited into his car. There were demands for a speech, but none was made. Instead, Mr. Bryan took his position on the steps of the rear platform and shook hands with the people as they crowded about.

SAVING HIS VOICE.

He told them that he desired to save his voice for the Wednesday ordeal and must, therefore, decline to talk.

"I have passed through Aurora many times," he said, as he pulled Mr. Alschuler up the steps, "and I have often wondered why you did not have a governor of your own living here, and I am glad to see that you are about to remedy the defect."

"And we," responded Mr. Alschuler, "have been wondering for several years why we did not occasionally have a president from Nebraska passing through our town."

Mr. Alschuler then introduced a number of friends and the train soon moved out. As it started there was a cheer for "the next president" from the crowd.

Mr. Bryan retired at 11 o'clock last night, just after passing Creston, Iowa. At that place the train was met by a demonstrative crowd as it also was at Red Oak, but at these places the nominee declined to speak.

IN COOL ATTIRE.

When Mr. Bryan emerged from the train in Chicago he looked cool and fresh, clean and upright, appearing well prepared for an arduous day. Clad in light summer clothing, he was evidently prepared to go through the day with as much comfort as possible for a presidential candidate entering upon the first work of campaign.

A committee of citizens who met the incoming party was headed by Mayor Carter Harrison, National Committeeman Gahan, Robert E. Burke and Frank Wenter, the latter appearing as a representative of the German-American clubs of the city. These, with other leaders, were admitted inside the station gates. Their followers sent up a lusty cheer as the national leader came into sight, but notwithstanding the presence of probably a thousand people at the station there was scant ceremony at that point.

After a few hearty hand shakes Mr. Bryan and his party were escorted to waiting carriages and driven to the Sherman house.

The party made its way through the throng at the depot with some difficulty and Mr. Bryan was frequently compelled, during the short walk, to stop and shake hands with an especially insistent admirer.

Among the clubs at the depot were one or two German-American organizations, the Thurman club and the Nebraska Bryan club of Chicago.

THE LEADERS MEET.

At the Sherman house Mr. Bryan was immediately ushered into a parlor on the ground floor, where he was soon joined by Hon. Adlai E. Stevenson. The candidates greeted each other cordially, and, standing side by side, they shook hands with a great number of people. All the visitors were more or less enthusiastic and most of them vouchsafed immense majorities as the result of the coming election. One old gentleman threw his arms around Mr. Bryan's neck and promised him a thousand votes as the result of his own individual efforts.

START FOR INDIANAPOLIS.

In the party accompanying Mr. Stevenson were Mrs. Stevenson, Louis G. Stevenson and Miss Letitia Stevenson, all of whom made the trip to Indianapolis.

Samuel Alschuler, democratic candidate for governor of Illinois, and Mayor Harrison, of this city, joined the party at the hotel shortly after its arrival there. The crowds continued to file past Messrs. Bryan and Stevenson until 11:30, when the reception came to an end and the party prepared for the start to Indianapolis.

START FOR INDIANAPOLIS.

Shortly before 1 o'clock the parade was formed to escort the Bryan and Stevenson party to the special train which was to convey them to Indianapolis.

A few minutes later the party left the Sherman house and entering their carriages in waiting took their places in the line of march to the Illinois Central station, at the foot of Randolph, where the special Big Four train awaited the party.

Preceding Messrs. Bryan and Stevenson and party was the Cook County Democratic band, and following the carriages of the distinguished democratic leaders were the members of the Cook county democracy to the number of 350, and about 100 other local democratic politicians, who were to accompany the party to Indianapolis.

A cheering crowd lined the streets. The party at once boarded the train and at 1:30 p. m. the start for Indianapolis was made amid prolonged cheering from a crowd of several thousand, which had gathered to witness the departure.

INDIANAPOLIS PROGRAM.

Indianapolis, Aug. 7.—Many prominent men from distant states arrived today to participate in the Bryan-Stevenson notification meeting in Military park tomorrow afternoon. Senator James K. Jones, chairman of the democratic national committee, today talked with Mayor Taggart over the telephone and consented to preside at the notification exercises. The arrangement is for Mayor Taggart to call the meeting to order, to make a short speech as mayor welcoming the visitors to the city, and then turn the meeting over to Chairman Jones.

Congressman Richardson, of Tennessee, will make the speech notifying Mr. Bryan, who will at once reply. Governor Thomas, of Colorado, will make the speech notifying Mr. Stevenson, to be followed by the speech of the candidate for vice president.

Arrangements have been completed for the parade to Military park tomorrow afternoon. Local and Indiana democratic clubs will head the column, which will form at 1:15 p. m. at Pennsylvania and Georgia streets, and will move in two divisions.

The candidates and their party will leave the Grand hotel at 1:30 and will join the parade there.

Mayor Harrison, of Chicago, will, according to the announcement by Mayor Taggart today, preside at the mass meeting to be held at Tomlinson hall tomorrow evening. Overflow gatherings will occur in Monument place, near by.

JONES NAMES COMMITTEES.

Chicago, Aug. 7.—Chairman Jones, of the democratic national committee, gave out the list of sub-committees of the main body yesterday afternoon. Former Governor Stone, of Missouri, was named on the executive committee, and Norman E. Mack, of New York, was left off. The only representatives the eastern states have on this body are Committeemen Guffey, of Pennsylvania, and George Fred Williams, of Massachusetts. John R. McLean, of Ohio, is put at the head of the ways and means committee.

The list of committees follows, the chairman, vice chairman and secretary being first, second and third, respectively:

Executive Committee—James K. Jones, Arkansas; J. G. Johnson, Kansas; C. A. Walsh, Iowa; W. J. Stone, Missouri; H. J. Clayton, Alabama; Thomas Gahan, Illinois; D. J. Campau, Michigan; J. M. Head, Tennessee; J. M. Guffey, Pennsylvania; George Fred Williams, Massachusetts; T. D. O'Brien, Minnesota; Thomas Taggart, Indiana; J. C. Dahlman, Nebraska.

Ways and Means Committee—J. K. Jones, John R. McLean, Ohio; C. A. Walsh, Iowa; Urey Woodson, Kentucky; Adair Wilson, Colorado; R. E. Tillman, South Carolina; J. G. Johnson, Kansas; T. E. Ryan, Wisconsin; M. F. Tarpey, California.

Press Committee—J. K. Jones, Clark Howell, Georgia; C. A. Walsh, Iowa; Josephus Daniels, North Carolina; Norman E. Mack, New York; J. G. Johnson, Kansas.

Advisory Committee—N. C. Blanchard, Louisiana; John H. Osborne, Wyoming; John T. McGraw, West Virginia; H. M. Teller, Colorado; Fred T. Dubois, Idaho; D. C. Tillotson, Kansas; William V. Allen, Nebraska; J. E. Weaver, Iowa; Eugene Smith, Illinois.

REFUGEES RETURN

MANY COME FROM CHINA ON THE LOGAN.

ESCAPED FROM TIEN TSIN

WENT THROUGH BOMBARDMENT OF CHINESE CITY.

BRUTALITY OF THE ALLIES

RUSSIANS IN PARTICULAR GUILTY OF INHUMANITY.

San Francisco, Aug. 7.—Among the refugees from China who returned on the Logan were the wife of Prof. C. D. Tenny, of the Imperial university at Tien-Tsin, and her children. They were among those who took refuge in Gordon hall during the bombardment and escaped uninjured. She and her husband had been together in China for eighteen years. Prof. Tenny is now accompanying the allied forces on the march to Pekin as an interpreter.

Prof. O. D. Clifford and his wife also came home. They bring with them a baby girl, who was born in Tien-Tsin on May 13. Mrs. Clifford is the daughter of Dr. Robert Coleman, who came home on the Coptic last week. Prof. Clifford was connected with the Imperial university.

Miss Lillie M. Tahr, of Lincoln City, Ind., who has spent two years in Tien-Tsin, had three narrow escapes from the savage boxers. She found safety with many others in Gordon hall during the siege and ventured out one day, was struck by a fragment of a three-inch shell. On two other occasions she was shot at by riflemen, but was not hit.

The two children of United States Consul Ragsdale, who have returned to their home in the states, tell stories of exciting experiences similar to those of others who lived through the perilous times in Tien-Tsin.

The tales of Russian brutality are confirmed by Rev. Frank Haynes, a Methodist missionary. He thinks the present troubles will be ended within a year.

Many of the refugees from Tien-Tsin escaped with only the clothing on their backs. Among those who lost everything are Henry Smith and wife, an English couple. Smith was a broker at Tien-Tsin and had a fine home in the British concession.

Prof. O. D. Clifford, of the Imperial university of Tien-Tsin, who was one of the last to leave the besieged city, says:

"Looting by the allied forces began as soon as they got the upper hand. The Russians led in this and went to extremes. They are naturally cruel and expecting no mercy, they showed none.

"I was an eyewitness to eight cold blooded murders by them. The victims were old and infirm Chinese. The Russians stole everything in sight, looting the houses in the settlement as the Chinese would have done."

Rev. Horace W. Houlding, a missionary, whose labors were in south Chi-Li province, between Ho Nan and Shan Tung, escaped with seventy-five others from Pei-Tai-Ho, the resort north of Taku, on the British warship Humber.

Mrs. H. P. Montell, whose husband is a turfman at Tien-Tsin, with Mrs. Frank F. Davis, of Philadelphia, passed through a trying experience during the bombardment and fighting at Tien-Tsin, and took advantage of the first opportunity to leave the place.

SUN SCORCHES PITTSBURG.

Pittsburg, Pa., Aug. 7.—One dead and seven prostrations from the heat is the record for the past twenty-four hours. The fatal case was Jacob Beneker, aged 67 years, a well known stock dealer. Yesterday was the hottest day in two years, the mercury standing at 97 for several hours. At 11 o'clock today the thermometer registered 90, three degrees hotter than the same hour yesterday, which indicates that the record of Monday will be passed before sundown. The intense heat caused great suffering in the mills and factories and many workmen were forced to quit work for the day.

UNEVENTFUL DAY AT CANTON.

Canton, Ohio, Aug. 7.—President and Mrs. McKinley had their usual drive about the city during the morning. At lunch they entertained Comptroller of the Currency Dawes, who stopped over on his way from Chicago to Washington. There was the usual number of callers and the usual business from Washington. Aside from this the day was uneventful. Extreme heat continues.

TO AMEND ORDINANCE.

A new ordinance providing for the licensing of pool tables, billiard tables, pigeon tables, Manhattan tables and all tables similar thereto, has been prepared by City Attorney Shambaugh and will probably be passed by the council. The only change in the old ordinance is to make it possible to license Manhattan tables without controversy.

BITS OF INFORMATION.

The Saxon government made more than $8,000,000 from its railways in 1899.

Only seven occupations were open to women in the United States in 1839; now there are about 400.

Philadelphia has just shipped a cargo containing $1,000,000 worth of agricultural implements to Russia.

Although Spain is an agricultural country, it had to import last year more than $15,000,000 worth of grain.

Salmon skins are used by the Eskimo of Alaska for making water-proof skirts and boots. They also make jackets out of codfish skins.

Bears are so destructive to cattle in some parts of Colorado that farmers are offering rewards of $50 to $200 for particularly dangerous beasts.

Bald heads and clean-shaven faces are healthy, according to a Philadelphia physician. He says that dangerous bacilli breed in hair and whiskers.

Although the Cossacks maintain nearly 60,000 fighting men and can muster 128,000 in an emergency, there are but 440 of them engaged in business.

The total population of the Philippine Islands is estimated at from 8,000,000 to 10,000,000. It is made up of no less than three distinct races, and these again are divided into eighty-four tribes, differing from each other in language, customs and laws and sundered by ancestral jealousies and feuds. Of the eighty-four tribes mentioned, seven may be fairly rated as civilized.

Boers Bigger than the English.

The Boers are taller stronger and of a more powerful physique than the English. It is quite a common occurrence to meet a Boer six feet six inches in height. The Boer who has taken to town life and acquired town vices may degenerate like other people, but this is not of frequent occurrence. Even those who do live in towns often preserve their primitive and simple methods of existence.

Except Mules'.

The average ear is from 2 to 3½ inches in length.

FREE STATE BOERS.

More Liberal in Their Religious Views than Their Transvaal Brethren.

The Boers of the Free State are essentially a pastoral people. Aside from the marvelously rich diamond deposits at Jaegersfontein (Hunter's Fountain), the Free State has nothing to distract its ambition from the growing of cereals and the raising of sheep and cattle. Farms thousands of acres in extent abound, the one on which Cronje made his last stand being 30,000 acres in extent.

In character, too, the Free State burghers differ from the Transvaal Boers. The former, being nearer to the civilization of the Cape Colony, have profited more or less thereby, and are moderately progressive. In religion, too, the Free Stater is more tolerant. The Transvaal Boer knows no church save the Dutch Reformed. The Free Staters, while mainly Lutherans, are to some extent Wesleyans and even Episcopalians—in fact, there are Roman Catholics among them. But whatever their respective creed, they are as devout as their Transvaal brethren.

Story of Oom Paul's Postmaster.

When Isaac Van Alphen, the postmaster general of the Transvaal and a warm friend of "Oom Paul," was in this country in attendance at the postal congress, he had an amusing experience which he still likes to refer to. Walking arm in arm with a friend near the Pennsylvania station in Baltimore one day, the distinguished foreigner was approached by a policeman, who announced that Van Alphen had been ordered to appear before the coroner to act as a juror.

"By what authority do you ask this?"

"By the authority of the State of Maryland."

"I acknowledge no such authority," said Van Alphen, the humor of the situation breaking upon him.

"You acknowledge no such authority?" repeated the policeman with amazement. "What do you mean?"

"Well," announced Mr. Van Alphen nonchalantly, "I am a resident of Pretoria in the South African republic, and I don't acknowledge the authority of the State of Maryland in this instance."

"Pretoria, South African Republic!" echoed the policeman, puzzled for a moment, but finally he begged Mr. Van Alphen's pardon, and walked away, saying, audibly, "Well, you're about the wisest 'coon' I ever saw."

It is probably the headsmen that affects the tied.

A WORD FROM MR. FRANK HEATHMAN.

Having investigated the affairs of the People's Mutual Burial association, I feel it my duty as a member and in justice to the said association, to say a word in its behalf. It is not quite two months old and in the face of all the misleading and condeming statements which are being circulated by certain persons who are not in smpathy with the association, I think its success has been phenomenal. I have this day received fifty dollars from the treasurer, payment in full, in accordance with the constitution and by-laws, of the five hundred members, who have paid in on the death of my wife. I wish to thank the members and the officers of the association for the benefit, which was a great help to me. I furthermore wish to thank Mr. Bloom for his kind and prompt service. I hope the members of the association will help extend the membership to every home in Allen county.

(Signed.) FRANK HEATHMAN.

The White Man's Burden

can be named in the single word—*dyspepsia*. It is the one disease, which more than any other, affects the American people. It is common to all classes and all conditions. It makes life miserable. It mars family happiness. It interferes with business and pleasure alike, and it discounts a man's usefulness just as much as it discounts his happiness.

There's a remedy for dyspepsia. Dr. Pierce's Golden Medical Discovery has lifted this burden from the bodies of hundreds of thousands. It cures ninety-eight out of every hundred who give it a fair and faithful trial.

"I used ten bottles of Dr Pierce's Golden Medical Discovery and several vials of his 'Pleasant Pellets' a year ago this spring, and have had no trouble with indigestion since," writes Mr. W. T. Thompson, of Townsend, Broadwater Co., Montana. "Words fail to tell how thankful I am for the relief, as I had suffered so much and it seemed that the doctors could do me no good. I got down in weight to 125 pounds, and was not able to work at all. Now I weigh nearly 160 and can do a day's work on the farm. I have recommended your medicine to several, and shall always have a good word to say for Dr. Pierce and his medicines."

Free. Dr. Pierce's Medical Adviser is sent free on receipt of stamps to pay expense of mailing *only*. It contains 1008 pages and over 700 illustrations. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for cloth binding to Dr. R. V. Pierce, Buffalo, N. Y.

MR. HARRIS' ADDRESS.

"Parties and Issues" was the theme of Attorney E. V. Harris, who addressed the Soldiers, Sons and Citizens' Republican club Monday evening, and the speaker discussed the political policies of the past and of the present. In contrasting the democratic and republican platforms of the present year Mr. Harris said the republican platform was couched in clear and unmistakable language, while the democratic declaration of principles was denunciatory of evils which he considered imaginary. He contended that no plank in the republican platform pledged the party to a policy of imperialism. He cited the resumption of specie payments and the enactment of the republican tariff laws, which he contended were instances of republican principles sustained by conditions which followed them. Mr. Harris thought the main issue in the present campaign was the money question, and in closing he paid a lofty tribute to President McKinley and his administration. The attendance at the meeting was lessened somewhat by the excessive heat of the evening.

PREVENTED A TRAGEDY.

Timely information given Mrs. George Long, of New Straitsville, Ohio, saved two lives. A frightful cough had long kept her awake every night. She had tried many remedies and doctors but steadily grew worse until urged to try Dr. King's New Discovery. One bottle wholly cured her; and she writes, this marvelous medicine also cured Mr. Long of a severe attack of Pneumonia. Such cures are positive proof of its power to cure all throat, chest and lung troubles. Only 50c and $1.00. Guaranteed. Trial bottles free at Dreier Bros.' drug store.

Three Unique Places.

Doubtless the most unique spot in Europe is the little village of Altenberg, where on its border four countries meet. It is ruled by no monarch, has no soldiers, no police and no taxes. Its inhabitants speak a curious jargon of French and German combined, and spend their days in farming the land or working in the valuable calamine mine of which it boasts.

The little town of Stanley, in the Falkland Islands, possesses the most unique school service ever known. Two traveling schoolmasters are provided by the government, who visit the different families where there are children and give instruction. The length of their visit depends on the astuteness of the children, and they may spend days or weeks, as the case may be, at one house alone.

A town boasting of a railway station which cost $20,000 to erect and a duly appointed station master, and yet having no train service, is unique beyond dispute. Dundee, in New Jersey, is in this predicament, the inhabitants having actually no trains, although their fine station is available for any amount of traffic, and the reason given for this strangefact is that so long as the trains run through the inhabitants ought to be satisfied.

One Pleasure of Leisure.

When we are at leisure we generally contrive to infuriate some one who is working hard to enjoy the same privilege.

IMPERIAL CORNER IN WHEAT.

(New York World.)

A unique chapter in diplomacy is disclosed for the first time by J. D. Welpley in McClure's Magazine for August. According to his statement a serious propostion was made by the Russian government to our government at Washington on November 4, 1896, to combine as governments to corner the entire surplus wheat of the world. On that day Mr. Kotrebue, the Russian minister at Washington, is said to have submitted it to Richard Olney, our then secretary of state. The object of the proposed combine of the two governments was to raise the price of wheat 100 per cent. for the benefit of Russian and American farmers at the expense of all the rest of bread-eating mankind. Our government, of course, declined the propostion. It was not, in fact, within its power to assent to it.

Together the United States and Russia produce about 90 per cent. of the entire surplus wheat of the world. Assuming that the two governments should, as Russia proposed, enter every market as buyers of wheat at the stated price of $1 per bushel, it is entirely probable that they could maintain for awhile the price of wheat at that level.

The world's wheat crop in 1898 was 2,879,000,000 bushels. The farmers who raised it sold it for about 50 cents per bushel. The Russian scheme, carried out, would add nearly $1,500,000,000 to the selling value of the entire crop. The farmers of the United States, who produce nearly 700,000,000 bushels a year, would thus gain about $350,000,000. The Russian farmers, who raise about 400,000,000 bushels a year, would add $200,000,000 to their income. Meantime the English people, who buy 125,000,000 bushels of wheat a year, would find their food bill increased by over $60,000,000 a year. British farmers, per contra, would get $30,000,000 a year more for their small crop of wheat.

It is plain that a Russo-American wheat trust would, in the present conditions, press most hardly upon England. But the inevitable final outcome of such a combination, successful though it may be for a year or two, would be to stimulate wheat production in every country in the world where wheat can be grown. It is a testimony to the great strength of the agrarian interest that the Russian government gave no consideration to the consumers of wheat in its scheme to double the price.

CAVALRY TROOP SURE.

The meeting of young men at the city hall Monday evening for the purpose of organizing an independent cavalry troop was well attended, and the preliminaries were discussed at length. The project was enthusiastically received, and it is said there is no doubt of the formation of the troop. Committees were named to arrange for definite action at a meeting to be held Thursday evening at the Elektron building. The young men believe there will be no difficulty in enlisting a full troop in this city.

COMPLAIN OF FILTH.

Much complaint has been made by residents on Lewis street and Douglas avenue, near McClellan street, of the unsanitary condition of the alley between the two thoroughfares. Complaint was made this morning to the board of health and the alley will be inspected some time soon. Persons who are violating the ordinance requiring that the alleys be kept clean may be prosecuted for the offense.

CORONER OF INDIANAPOLIS IS PUZZLED.

STRANGE CASE OF MISS ELLIS

PHYSICIANS SAY SHE IS DEAD AND FRIENDS DENY IT.

HAPPENINGS IN HOOSIERDOM

GENERAL NEWS OF THE STATE OF INDIANA.

Indianapolis, Aug. 7.—Coroner Nash will be called upon to decide whether or not Miss Jennie Ellis, of Portland, Ore., is dead. She has been visiting Mrs. Mary A. Willets, of 828 Blake street, this city, and Sunday night, when she retired, seemed in perfect health. When called yesterday morning she did not answer, and physicians who were called pronounced her dead. Both Mrs. Willets and Miss Ellis are members of the Christian Israelite church, the members of which believe they can commune with God by going into trances, and Mrs. Willets believes Miss Ellis is in a trance. Coroner Nash does not know what to do, although he may hold an autopsy.

FIVE BULLETS IN HIS BRAIN.

Muncie, Ind., Aug. 7.—The discovery was made last night that Henry Overmire, of Yorktown, the retired farmer who attempted suicide two weeks ago by shooting himself in the head, fired five bullets into his brain instead of three. Two extra empty shells were found today and the bullets were located in Overmire's head. Two were extracted last night and the three fired into the forehead and each ear remain. The aged man stood the operation well and will probably recover.

BATTLED WITH TRAMPS.

Tipton, Ind., Aug. 7.—There was a battle, Sunday, between the police and the tramps lounging about the junction, in which the "hobos" were worsted. This city has been overrun by these "wont-work" tourists, and they became a menace to the public by their insulting demeanor toward women and children, and their petty thievery. They attempted to rob several people and the chief of police gave orders that they should be clubbed out of town. Twenty and more were given marching orders, and several of the more obstreperous were given cause to remember their visit here.

GOES TO MICHIGAN.

Laporte, Ind., Aug. 7.—Rev. Julius Reichert, recently pastor of the German Evangelical church, at Bremen, has accepted a call to the pastorate of a church at Adrian, Mich. The Bremen church has extended a call to Rev. E. Brenion, of Howard City, Mich., who will assume charge in a few weeks. The corner-stone of the new Evangelical church, at Bremen, was laid Sunday, under the direction of Rev. S. H. Bumgartner, of Elkhart. When completed the cost will be about $10,000 and it will be the handsomest edifice in Bremen.

STRANGLED TO DEATH.

Rushville, Ind., Aug. 7.—Fred Bundy Churchill, seven months old, son of Earl R. Churchill, merchant, hung himself yesterday while playing in his tiny iron bed. He was caught between the side rail of the bed and a sliding iron rod, used to prevent the little one from falling out of bed. When found the baby's chin was resting on the side rail, with the back of its head against the side-guard and its feet nearly touching the floor. The body had apparently been dead for twenty minutes before discovery by Mrs. Churchill.

PINE LAKE ASSEMBLY CLOSES.

Laporte, Ind., Aug. 7.—The services of Sunday witnessed the formal close of the Pine Lake Assembly, which opened last week. The attendance during the sessions was better than that of previous years, and the result has been a large increase in the membership of the association. The grounds were sold under a mortgage about a year ago, but as the result of the assembly meeting, a sufficient number of lots were sold again to place the grounds and buildings in possession of the association.

DECATUR MAN DROPS DEAD.

Decatur, Ind., Aug. 7.—Edward Coffee dropped dead at his home in this city of heart disease. He was 35 years old. Several years ago he took an active part in politics. He was a democrat and an exceptionally brilliant speaker. Just as the fame of the young orator was beginning a matic trouble, he was never able thereafter to speak above a whisper. He continued, however, to carry on an extensive law practice.

GAAR MAY RECOVER.

Richmond, Ind., Aug. 7.—John M. Gaar, resident of the Second National bank and also president of the great threshing machine firm of Gaar, Scott & Co., is seriously sick at his home in this city. However, his physician says there is no immediate danger and holds out hope of recovery. Mr. Gaar, who is 76 years of age, is suffering from a complication of troubles.

STORY IS NOT YET TOLD.

Terre Haute, Ind., Aug. 7.—There is a belief that Otto Cottom, the seventeen-year-old youth who shot himself because of his alleged forced marriage to a woman he knew as Lou Chandler, has not told all that he knows. Sufficient has leaked out to indicate that possibly he was the scape-goat of another young man, whose identity is known to him. The whereabouts of the woman is still unknown. Cottom offers no further explanation concerning the letter which he claimed to have received, which he first said was mailed at National City, near Peoria, Ill., and afterward explained that National City, Va., was meant. There is no such postoffice in either state, but there is a National City in California. The evening that the story of attempted suicide appeared in the newspapers a woman of about twenty-seven, the reputed age of Lou Chandler, overheard a member of the family where she was employed as a servant, reading an account of the affair. It was noticed that she was startled. Later in the evening she quit the employment of the family, and the next day a young man called for her clothing. This young man answers the description of the man whom Cottom says officiated at the marriage ceremony.

LUTHERAN SYNOD'S MEETING.

Laporte, Ind., Aug. 7.—The central district of the Missouri Lutheran synod, which embraces the states of Indiana, Ohio and Kentucky, will convene in St. John's church in this city, Wednesday morning, August 8, and continue in session one week. The sessions will be attended by 171 clergymen, 137 lay delegates and seventy-one teachers. The synod consists of 181 congregations with 81,558 members and 162 parochial schools with 18,220 scholars. There are but four cities in the district that are able to entertain the synod, viz: Laporte, Indianapolis, Fort Wayne and Cleveland. Of the four all but Laporte have more than one congregation. For some time the ministers have been considering the advisability of dividing the synod owing to its size, and that question will probably come up for consideration at this gathering.

The opening sermon will be delivered by Professor Pieper, of St. Louis. The clergymen, lay delegates and school teachers began arriving today.

THE LYDA POINSONING.

Fowler, Ind., Aug. 7.—Mrs. William Lyda and Starr Cox, defendants in the Lyda poisoning case, are seeking by habeas corpus proceedings to be released on bail, and the case is being heard by Judge Babb. The evidence for the state is stronger than first supposed, and there is much excitement over the matter, with a belief that the application will be denied. It will be recalled that William Lyda died on the night of July 19, with symptoms of strychnine poisoning, and despite Mrs. Lyda's objections a post mortem was held by the coroner, and the presence of strychnine was discovered in the stomach. The arrest of the principals named followed. Starr was a farm laborer in the employ of Mr. Lyda, making his home with his employer. The victim was a well-to-do farmer, who owned eighty acres of land on which he had built a comfortable home. He married Mrs. Lyda twenty-two years ago. There are no children.

ASSAULTED HIS WIFE.

New Albany, Ind., Aug. 7.—Chas. Kirchgessner, thought to be insane, attempted to kill his wife yesterday. He dragged her from his house, and attempted to stab her with a butcher knife, but was prevented by her brother, Peter Defiet. Mrs. Kirchgessner's refusal to sell her property and return to Germany is said to be the cause of the assault.

NO SPECIAL EXAMINER FOR FORT WAYNE.

Harry F. Schontz is Ordered to Washington—The Business Has Been Diminishing.

Fort Wayne no longer has a special examiner, and the quarters of that official on the third floor of the governmen building were closed today. No one knows to a certainty whether the abolition of the Fort Wayne office is permanent or not, but it is probable that it will at least be closed until there is more business for the examiner in this territory.

Harry F. Schontz, who has been stationed in this city as special examiner since March, 1899, has been ordered to return to Washington, and to bring with him the records of his office. Mr. Schontz packed up today and this evening will leave over the Pennsylvania for the east. The Fort Wayne district has been composed of nine counties in this section of the state, and as there has been a falling off in the pension matters of the district, the department has decided to abolish the Fort Wayne office and to divide the work up among the adjacent districts. Mr. Shontz will return to his former position in the pension department at Washington. During his stay in the city he has made many acquaintances and formed a wide circle of friends who regret to see him leave the city.

STORY OF A SLAVE.

To be bound hand and foot for years by the chains of disease is the worst form of slavery. George D. Williams, of Manchester, Mich., says: "My wife has been so helpless for five years that she could not turn over in bed alone. After using two bottles of Electric Bitters she is wonderfully improved and able to do her own work." This supreme remedy for female diseases quickly cures nervousness, sleeplessness, melancholy, headache, backache, fainting and dizzy pells. It is a godsend to weak, sickly, run-down people. Cure guaranteed. Only 50c. Sold by Dreier Bros., druggists.

DYSPEPSIA

"My wife suffered for many years from Nervous Dyspepsia, Sick Headache, Sleeplessness and Nervous Debility," writes John Kelloer Philadelphia. "We tried many physicians and numerous remedies, but with no results, until I heard of Johnson's Dyspepsia Cure. We bought six boxes, and the results far surpassed our expectations. She now eats and sleeps well, is gaining in flesh, and her color, which had got to be yellow and sickly, is now as fresh as when we were first married, and I tell her that Johnson's Dyspepsia Cure has made her ten years younger."

CELERY KING
NATURE'S CURE

It Makes Restful Sleep.

Sleeplessness almost invariably accompanies constipation and its manifold attendant evils—nervous disorders, indigestion, headache, loss of appetite, etc. To attempt to induce sleep by opiates is a serious mistake, for the brain is only benumbed and the body suffers. Celery King removes the cause of wakefulness by its soothing effect on the nerves and on the stomach and bowels.

Celery King cures Constipation and Nerve, Stomach, Liver and Kidney diseases. 5

SOLDIER OF AMERICAN ATTACK FILIPINO STRONGHOLD.

A WOUNDED FORT WAYNE BOY

TELLS HOW A BULLET WENT THROUGH HIS BREAST.

PRIVATE L. W. JONES' LETTER

IS RECOVERING AND WILL SOON RESUME DUTY.

Some time ago The Sentinel's telegraphic dispatches announced that Lewis N. Jones, a Fort Wayne soldier serving with Company C, Thirty-fifth United States volunteers, in the Philippines, had been wounded in action. The young man is a brother of Mrs. Charles Hudson, of 153 Poplar street. Readers of The Sentinel will be pleased to know that the young soldier is recovering, and will be interested in his description of the affair in which he was shot. The letter follows:

"Balinag, P. I., June 25.—This hospital life is something fierce One doesn't have any chance to exercise, and it is very hard for me to sit around here and see others enjoying themselves. I asked to be marked 'quarters' on the sick book this morning, but the surgeon looked at me as if he thought me better off where I am. I feel pretty good now, but it would not do for me to say I am well. I only feel a little sore on the inside, and I could run about and have a good time if they would let me.

HOW IT HAPPENED.

"Well, I will tell you a little about the time I had. Our company started May 30 for San Rafael, where we stayed all night. I slept on a windows hutter, with my haversack as a pillow. We had four days' rations on those 'hikes,' and as I never carry anything I don't need, I had no blanket. It rained that night, and when we started on the 31st we found it very slippery. Before we had gone two hours they had to send back some of the men who could not stand it, so our company was cut down to about forty-five men. We kept going up and down hill all the time, farther and farther into the mountains, till at noon we halted at a river and proceeded to cook dinner. I had to cook for two—myself and a brother Red Man, John Dunnigan, who had all he could do to get there. But he had the grit to stay, and many men stronger than he went back. I ate dinner and then took a bath, after which I felt much better.

"Our first sergeant and another sergeant had given out and the captain and lieutenant were carrying their guns and belts, and we all felt very tired, but after an hour's rest we started on, using a native whom we found for a guide. About 2 o'clock I saw something in the brush and told the captain. We halted and I went in to see what it was. Found a boy trying to hide. We took him along, and soon came upon a little open space with a few shacks, searched the place and found one man with a gun and several others who were not armed. We made the fellow talk, and he said he knew where there was a general and some insurgent troops.

"We posted a guard and camped here all night. In the morning, June 1, we released all the prisoners except the man who had the gun, and we made him guide us that day. He didn't like to do it and cried a good deal, but that didn't help him any. We kept going higher all the time and it was still wet and hard walking, though we saw some beautiful country. Just before noon we stopped for dinner. They had not all finished eating, and I had just got into the trail and sat down when one man jumped up and said, 'Here they are.'

SOME LIVELY WORK.

"Well, you ought to have seen us get our guns. The boys forgot it was dinner time. There were three insurgents in the trail and we did not fire on them, but threw out a skirmish line and went up the hill 300 or 400 yards. Here we reached a ridge, and as we did so we were fired on. Finally we located the insurgents on a large hill just in front, but separated from us by a deep gully. We lay down with this ridge for a breastworks and returned the fire when we saw anything to shoot at.

"After we had kept up the firing for two hours myself, one lieutenant and two other men went scouting to see what sort of a place we were in. We found that the hill held by the enemy had but one trail up the side and it was so steep that a man would need his hands to help him up. They were well intrenched on top and sides, and there were no brush or trees on the hill.so, you see it was impossible to get up without being in full view at all times. lieutenant and they talked it over while we boys continued to feed the insurgents and listen to them go whizzing by. We were firing 1,500 yards, and could not see what work we were doing. There were eight or ten of us close to the captain, who finally said: 'Some of you men go and tell the sergeant to get his squad out, and we will go; we can't do anything here.' The boys all sat still. I asked the captain where they were and he told me. I started to get them. I had about twenty-five yards to go in plain view of the hill, then into the brush and behind the ridge where the others were.

"I reached the edge of the ridge and asked for the sergeant when I was hit about two inches below the collar bone with a Mauser ball. The ball penetrated the right lung and came out below the shoulder blade. Well, I was not long in getting down behind the ridge. The sergeant saw me and came over; then I told him and we started for the river. When I got there I ound the boys making a litter. They bound me up with first-aid bandages and I got into the litter. It was made of two poles and two ponchos or rubber blankets.

A PAINFUL RIDE.

"My wound was beginning to pain a good deal now, and frequently the litter would close up on me. Once it broke and I hit the ground. Then it began to rain and they put a poncho over me. When they would go up hill I would get a lot of water in my face. Then it got dark and rough on the mountain trail—so dark one could not see four feet, and part of the time I was dragging on the ground. Then someone would slip and hit me with his foot, or fall down on me, and the least pressure on that side would hurt fearfully. How glad I was when they finally stopped in a little opening for the night. They put me under a tree on that wet stuff and I got a little sleep. Two of the boys stayed up with me and the others formed a skirmish line and lay down on the wet ground to sleep with one post or guard. Each man would stand twenty minutes, then awaken the next on the line, and so on through the night.

"The next morning we found we were within an hour's march of a little town. We went there and they put me on a bed in an old cavalry barracks while the boys got breakfast. As they had no supper the night before, they ate about all they could get. I had ham and eggs and hard bread for breakfast, and felt better. Then they fixed up a sled and got a cariboo to haul me in to San Miguel, a distance of ten miles. The cariboo was a wild one, as are all of the mnot used to soldiers, and when he would go at all it was on the jump—just hitting the high places in the road. I felt as if I were about dead, and I am afraid I talked rather roughly to that native, but we got him stopped, and I refused to ride him further.

"So they got four natives and I told the boys how I wanted a litter fixed—with sticks in the ends to keep it from closing up on me. They fixed it that way. They got me a parasol and we started on; soon picked up four more men and made them help carry me. We got to Miguel about 6 o'clock on the evening of June 2, about twenty-eight hours after I was shot before I received medical aid.

RAPID RECOVERY.

"My recovery has been rapid; to see the mark you would not think a ball had gone through me. While I suffered fearfully on that trip don't think I blame the boys, for they did all for me that was possible. They were nearly worn out themselves with what we had gone through and that night did not know whether we were going further into the mountains or getting out of them, and were expecting an attack at any moment. I assure you it was about as trying a night as I ever saw.

"A short time after our men went out there with four companies and could not take the place; it was practically invulnerable. Then General Grant and General Funston went up with two pieces of artillery and seven companies of the Twenty-second infantry, three of the Thirty-fifty infantry, several companies of the Thirty-fourth and Forty-second, and a company of Maccabebee scouts and drove the insurgents off. General Grant said after he returned that fifty Americans on that hill could hold it against the whole island. So you can have some idea of what we were up against with only forty-five men. I guess it was about the real thing.

"Well, all that I hate about it is that I got it in the first battle, but that is not saying they can do it again. I am all right now, I assure you. The doctor said I could get out and walk around, and I will soon be on duty again, and you bet I will be glad of that.

"Your loving brother,
"Lue."

PARTY DAY CELEBRATED AT ISLAND PARK.

W. S. Taylor, Former Governor of Kentucky, and James E. Watson the Attractions.

Rome City, Ind., Aug. 7.—This is republican day at Island Park assembly and republicans from Ohio, Michigan and northern Indiana are here in force. Excursion trains from many points brought in large crowds and the attendance is large. Among the distinguished party men are Former Governor W. S. Taylor, of Kentucky; Col. W. T. Durbin, republican candidate for governor of Indiana; Congressman James E. Watson, of the Sixth Indiana district; Hon. R. B. Hanna, republican candidate for congress in the Twelfth district, and many others are here. Governor Taylor and Congressman Watson were heard this afternoon from the assembly platform.

Dr. Gear Hobbs has given the Island Park people a rich treat in his three days' stay at the assembly. He preached an able sermon from the text, "People that do know their God shall be strong and do exploits." His exemplification of the true meaning of strength has revealed from Daniel's standpoint indicated purity of heart, resoluteness of character and decision in loyalty to God. Also that an acquaintance means more than seeing with the natural eye and living in the age of the person whom we profess to know. We may know by hearing of and believing in the individuals whom we implicitly trust. His discourse was a strong one.

His great lecture describing India and its famine stricken people was most thrilling and impressive.

One of the great evenings of the assembly will be Wednesday, when we are promised the presentation of the Passion Play, by Professor Kline and his cinematograph. The first passion play to be given at Oberammergau since the invention of moving pictures is yet on at that place and this set of pictures is the first which have come to America. They were taken out of the custom house at New York on the 22nd of July by Mr. Kline and have been used but twice, at Des Moines and Colfax, Iowa, where they aroused unbounded enthusiasm. Unlike the old passion film and scenery these are of the passion itself, as presented in Oberammergau and being made in the open air peculiarly natural and very beautiful. They can be put on but one evening and no one can afford to miss them.

Thursday is Temperance day at the assembly, and already Mrs. Mary E. Balch, Mrs. M. A. Tompwins and Mrs. Josephine Woods, W. C. T. U. workers, have done excellent advance work. The program for their day will consist of brief addresses by Mesdames R. C. Travis, A. P. Daub, Laure Phoenix, Josephine Wood and other union workers.

Quincy D. Morrey will deliver the principal addresses, afternoon and evening. There will be, in connection with this, a diamond medal contest.

The noted world's evangelist, Rev. Aaron Worth, will deliver one of his telling prohibition speeches. Mrs. Luella F. McWhirter and Mrs. Amanda Whitson, of Indianapolis, will be present. A number of temperance quartets have been promised and Evangelist Masters, of Muncie, will bring in a large excursion from his own town and intermediate points.

Mr. J. W. Hunter, superintendent of the Grand Rapids and Indiana railroad, was a visitor at the assembly yesterday and is highly pleased with the increase of attendance that the traffic on the roads indicated in this, the twenty-second annual session of the assembly over the previous years. Island Park is his pride and one thing that secures his best endeavor, and he promises many great improvements to be made on the assembly ground in the coming year.

MR. GEAKE IS HOME.

William Geake arrived in the city Monday evening on his return from a two months' tour of Europe. H. C. Hanna, who accompanied him, remained in New York to attend to some legal matters, and will reach the city Friday. Mr. Geake and Mr. Hanna traveled extensively in England, Ireland, Scotland and France, and the trip was a most enjoyable one, though the Paris exposition is a disappointment to Mr. Geake, who is of the opinion it can not be compared with the recent world's fair in Chicago. Great Britain is apparently enjoying prosperity, even though business is not carried on with the rush characteristic of America, and everybody appears to take life easier than on this side of the water. American trade is being catered to very largely in England. While in England the Fort Wayne gentlemen were fortunate enough to get a glimpse of Queen Victoria, the prince and princess of Wales, and many other prominent personages, and visited numberless spots of historic interest.

BAKING POWDER

-Absolutely Pure-

For the third of a century the standard for strength and purity. It makes the hot bread, hot biscuit, cake and other pastry light, sweet and excellent in every quality.

No other baking powder is "just as good as Royal," either in strength, purity or wholesomeness.

Many low-priced imitation baking powders are upon the market. These are made with alum, and care should be taken to avoid them, as alum is a poison, never to be taken in the food.

ENGINEERS WILL GO.

Thursday morning an engineering corps will start over the line of the proposed Indiana and Ohio Traction company, from Marion to Hicksville, and their work will form a basis for the construction estimates. The right-of-way has all been secured, and it is hoped to soon begin the actual construction of the line.

Andrew Sundheima, a butcher of Wabash, Ind., is an inveterate tobacco chewer, using plug exclusively and carrying it in a hip pocket. A few days ago he absent-mindedly thrust a $10 bill down alongside the tobacco. The weather was hot, the bill and the tobacco stuck together and not until the plug had nearly disappeared did Sundheima learn that for a couple of days he had been chewing a $10 bill along with his weed.

NIAGARA FALLS, TORONTO AND THOUSAND ISLANDS.

On Tuesday, August 14th, the Nickel Plate road will run its 18th annual excursion to Niagara Falls. Usual stop-off at Chautauqua Lake without extra charge. In connection with this excursion tickets to Toronto will be sold for $1.00 extra, Thousand Islands $6.50 extra. They tell in New York of a wealthy citizen, name not given, who for 12 years past has been importuning presidents of the United States to appointing him to office. He assures each occupant of the white house that he will under no circumstances accept. All he wants is "the privilege of refusing," as he wrote to President Harrison, but so far no chief magistrate has cared to take him at his word.

BATTERY BOYS ARE PAID.

At the regular meeting of Battery B on Monday evening Captain Ranke disbursed among the members the pay for attending the state encampment at Indianapolis recently. Each man received $1 per day for his time, and the sum of $302 was distributed.

WORK IS NEARLY DONE.

Special Agent P. L. Zorbaugh, who has been compiling industrial statistics of the city under the authority of the census department, stated this morning that the work in Fort Wayne was very nearly completed, and a few days would finish the work. The canvass at Decatur, Bluffton and Columbia City is also completed. Mr. Zorbaugh says the information has been given freely, and he believes the compilation is accurate and complete.

Everything points to one of the largest apple crops this season in the history of Nova Scotia.

Jack Harper was revenged yesterday for the treatment accorded him Sunday by Mr. Armour's alleged coming champions. He was supported behind the bat in yesterday's contest by Bergen, in whom Harper has more confidence than any backstop who ever handled his curves. The result was phenomenal work by the slender pitcher. He had speed, curves and worked the Dayton batters with an occasional slow one, until at the end of the game he had "fanned" seven batters. The Fort Waynes did not field in gilt-edge style and several times it appeared as if a Dayton runner might score, but Harper's effective twirling was too much for them and not until the ninth were they able to get a runner over the plate. In the last inning "Jiggs" Donahue smashed the ball over the left field fence and trotted around the bases. Fort Wayne scored first in the fifth inning, when Belden led off with a single. He attempted to go to second on a sacrifice hit. Meyers gathered in the ball and threw toward second, but Belden was in the way and the ball hit the runner. Harper's single sent Ira over the rubber. In the ninth the winning run was scored by Krueger, who made a pretty single and was advanced to second by Letcher's sacrifice. "Doggie" Miller's two-bagger sent him over the rubber. Score:

NOTES OF THE GAME.

Brashear has failed to make a hit in seven games played on the trip. Belden has done the best batting, having made a hit in every game.

Manager Loftus, of the Chicago National league team, has released Shortstop Clingman and Catcher Nichols has been farmed out to Minneapolis.

President Mautner is with the team and will watch Reynolds pitch in the game at Richmond tomorrow. If he shows good form an effort may be made to sign him for Fort Wayne next season.

Rosebrough and Reiman have been released by the new Marion management. It is surprising to see "Rosy" go, as he was the only reliable twirler on Manager Finn's staff. He pitched much better ball than "Whitey" Guese.

Dayton had won ten consecutive victories when Fort Wayne took a fall out of them yesterday. "Doggie" Miller has already won as many games as the "fans" anticipated when the team started on the trip and if the Hoosiers win again today he will have exceeded anticipations.

The Fort Wayne team will play in Richmond tomorrow. Ream and Kleinow will form the Fort Wayne battery and Reynolds and Earle will be in the points for Richmond. Thursday Fort Wayne begins its final series of three games in Columbus and Sunday returns home to play with Toledo.

"Chick" Stahl's bat assisted in winning two games for Boston yesterday. One victory came in the eleventh inning and the other in the ninth, Stahl scoring one run in the first game and two in the second. He made two hits in each game, a homer being among his contributions in the first. He captured seven fly balls in the two games.

TO BUILD MUNICIPAL PLANT

WATER WORKS AND ELECTRIC LIGHT FOR MONROEVILLE.

Board So Decided at a Meeting Held Monday Evening—Will Cost About $8,000.

D. C. Purman, a member of the Monroeville board of town trustees, was in Fort Wayne today and The Sentinel learned from him that at a meeting of the town trustees held Monday evening it was voted to construct a municipal light and water plant. The project has been agitated in the little town for a long time and a petition favorable to the construction of such a plant, signed by two-thirds of the property owners, was filed with the board. Inquiry was made of cities where plants are now in existence, and Mr. Purman says that every advice was favorable to Monroeville owning a light and water plant. It is proposed to purchase a 120-horse power engine and operate both plants with the same power. An immense stand-pipe will be erected and Mr. Purman estimates the cost of the plants at $18,000. There was some opposition to the action of the board, and thirty days will be given for remonstrance, but so certain was the board of following out its decision of last night that Mr. Purman was sent to Fort Wayne to confer with H. C. Hanna, attorney for the board. Mr. Hanna has not returned home, but is expected in two or three days. His advice as to proceeding with the building will be followed.

Ex-Representative Harvey Horner, of Sumner county, Kan., is a snake tamer, and usually carries around with him, in his pocket, a live bull snake, with which he makes lots of fun. A pickpocket "touched" Horner at the circus at Wichita and happened to get his hand into the pocket where the snake was kept. The shock made him scream, and Horner held him until the police arrived.

THE MARKETS.

Chicago, Aug. 7.—Early trading in wheat today was characterized by a sharp advance in prices. Liverpool cables were a surprise to traders, showing an entirely unlooked-for advance of about 1⅝d, due to the continued weather in England and consequent damage to the crop. This started heavy general buying and for a time the market was quite strong. The advance brought large quantities of long wheat on the market, chiefly from local holders, and the market gradually became easier with trade quieting down as the liquidation was accomplished. September opened at from 76⅛c to 76½c as compared with yesterday's closing of 75⅞@75⅛c. It sold down to 76@76⅛c, back to 76¼c and then to 76⅛c. Northwest receipts were 210 cars, against 304 last week and 199 a year ago. Chicago receipts were 330 cars, 63 of contract grade. Weather in the wheat country was favorable for harvesting operations.

Little interest was taken in trading after 11 o'clock. Bidding indicated that there was a good demand for wheat at 76 cents or under, and the market held close to that figure most of the time, though one dip occurred which sent the September price back to 75¾c. The market was helped near the close by reports of good export engagements and closed steady at 76¼c for September.

Corn was firm and higher. Cables were higher, and damage reports from the prevailing hot winds in Kansas and Iowa continued to come in. There was some sympathy with the wheat strength. Receipts were 310 cars. September opened at from 38⅛c to 38⅜c, against yesterday's close of 37⅝c. The market became quiet and steady around 38⅜c.

September sold at 38⅛c and up to 38⅝@38¾c, with the close at 38½@38⅝c.

Oats were strong and higher in sympathy with other grain markets. Offerings were light and the country bought in moderate quantities. Receipts were heavy, 718 cars. September opened ⅛@¼c higher at 21⅞c and sold at 22c.

Provisions shared in the general strength, though only to a moderate degree. The good cash demand was the principal factor. The hog market was higher, country buying orders were in evidence, but trade as a whole was light. September pork opened 12½@15c higher at $11.97½@12.00 and sold at $11.97½. September lard opened 2½c higher at $6.85 and sold at $6.85@6.87½. September ribs opened 7½c higher at $7.20@7.22½ and reacted to $7.17½@7.20.

THE CLOSE.

Prices at the close were as follows:

Wheat—Aug., 75½c; Sept., 76¼c; Oct., 77@77⅛c.

Corn—Aug., 38⅞c; Sept., 38½@38⅝c; Oct., 37⅞c.

Pork—Aug., $11.82½; Sept., $11.87½; Oct., $11.90.

Lard—Aug., $6.82½; Sept., $6.85; Oct., $6.90; Nov., $6.82½; Dec., $6.72½; Jan., $6.72½.

Ribs—Aug., $7.17½; Sept., $7.15@7.17½; Oct., $7.12½; Jan., $6.10.

Flax—Cash N. W., $1.34; Cash S. W., $1.34; Aug., $1.29; Sept., $1.28½; Oct., $1.24½.

CHICAGO LIVE STOCK.

Chicago, Aug. 7.—Cattle—Receipts, 3,000, including 700 Texans; market steady to strong. Good to prime steers, $5 40@5.90; poor to medium, $4.75@5.35; stockers and feeders, $3.00@4.65; cows, $3.00@4.50; heifers, $3.10@5.00; canners, $2.20@2.75; bulls, $3.00@4.50; calves, 25c higher, $5.00@6.90; Texas fed steers, $4.35@5.25; Texas grass steers, $3.25@4.35; Texas bulls, $2.50@3.40.

Hogs—Receipts today, 15,000; tomorrow, 23,000; left over, 2,492. Market 5@10c higher; top, $5.50. Mixed and butchers, $5.15@5.50; good to choice heavy, $5.10@5.45; rough heavy, $4.90@5.05; light, $5.20@5.50; bulk of sales, $5.20@5.40.

THE DAY ON WALL STREET.

New York, Aug. 7.—There was little doing in stocks at the opening of the market and changes were unimportant. The majority were small losses, but there was a sufficient sprinkling of gains to give a mixed appearance. Prices turned abruptly downwards after the opening, the selling and decline being largest in Sugar, Baltimore and Ohio and Brooklyn Transit. The bears covered when these stocks got down a point and partial recoveries followed. Some heaviness prevailed in the Grangers and Pacifics, but losses were small. The Steel stocks were also easier and Republic Steel lost 1½. Near 11 o'clock a firmer tone developed, but the demand was so light that the list failed to get up to yesterday's closing figures.

The market drifted to a lower level in the second hour, but changes were narrow in the prominent stocks. Subsequent losses were made by Chicago Great Western preferred B, which yielded 2⅝; Iowa Central preferred, 2; Consolidated Gas, 1⅝, and Metropolitan Street Railway, 1½.

Slight changes either way were recorded for bonds.

TO GET GOVERNOR ROOSEVELT

U. V. L. COMMITTEE IS MAKING A BIG EFFORT.

Hope to Secure Other Prominent Notables for the Encampment —Some Acceptances.

The invitation committee for the national encampment of the Union Veteran Legion is making a strenuous effort to secure the attendance of Governor Theodore Roosevelt on Friday of the encampment. This is the day more especially devoted to the Spanish-American war veterans and it is hoped to have the famous rough rider to review the big parade on that day. The local republican organization is supplementing the invitation committee, and within a short time it is hoped to secure a favorable reply to the invitation.

Unless the plans miscarry President McKinley will be in attendance on Wednesday, and Col. W. J. Bryan on Thursday. These, in addition to many other distinguished Americans, ought to insure some great crowds of people in Fort Wayne in September. General Miles will undoubtedly be present unless the Chinese situation should demand his attention too colsely, and General Joseph Wheeler is regarded as certain to be here.

Among those who have already given positive assurance of their intention to be in Fort Wayne during the encampment are Gen. W. C. P. Breckenridge, of Lexington, Ky.; Gen. John Coburn, of Indianapolis; Gen. W. H. Withington, of Jackson, Mich.; David E. Beam, deputy commander of the G. A. R., Indianapolis; Gen. George C. James, of Cincinnati; Rev. Couden, the famous blind chaplain of the house of representatives, and Corporal Tanner, of Washington. Responses have also been received from Governor John R. Tanner, of Illinois, and Lyman J. Gage, secretary of the treasury, as well as several others.

The executive committee held a meeting Monday evening and heard reports from the sub-committees. The finance committee is yet much short of reaching the required $5,000 but the members are still at work, and it is hoped to bring the subscriptions up considerably within the next few days.

It came out in the reports of the recent Methodist conference that only two of the fifteen official journals of the church, published in different sections of the country under the common name of the Christian Advocate, had been conducted at a profit. The net loss on the others—$108,000 in four years—had been borne out of the profits of the publishing business known as the Book Concern.

The requirements of health can be counted on the fingers of one hand. They are: Good air, good food, suitable clothing, cleanliness and exercise and rest.

AN INTERURBAN FRANCHISE

GRANTED L. B. M'ILHENNY OVER PIQUA ROAD.

Line Will be Constructed to Connect Fort Wayne and Decatur—A Special Election.

The county commissioners have granted L. B. McIlhenny a franchise to construct an electric railway line from the southern limits of the city of Fort Wayne, along the Decatur or Piqua road, to the northern boundary line of Adams county. The grant is for thirty-five years and the company is expected to commence work before September 1, 1901, and have cars in operation on or before November 1, 1902. Cars are not to be run at a speed faster than twenty miles an hour and stops must be made at every public crossing or street. The company will also maintain stopping places between crossing at not farther than one mile apart nor nearer together than a quarter of a mile. A drainage system must be maintained by the company and the weeds along the highway must be cut by the employes of the company. County bridges cannot be used for the railway, but Mr. McIlhenny is granted permission to construct bridges alongside the county bridges. Other interurban lines which begin outside Allen county can be granted permission to use one-eighth mile of the tracks of the company, provided the new company pays one-half the price of construction of such portion of tracks as it may use. All repairs to the highway must be made by McIlhenny, or, if the commissioners order the repairs, at McIlhenny's expense. After the road has been completed three years the company agrees to pay into the county treasury $30 per mile for each mile of highway operated upon each January, said money to be used in keeping the highway in repair. A bond of $25,000 must be given to the county before the road is begun. The commissioners agree that in case of injunction proceedings the company may be given an extension of time equal to the time delayed by court proceedings.

A SPECIAL ELECTION.

The county commissioners have granted the petition of Springfield township voters for a general election to vote on a proposition to appropriate $10,000 as a subsidy to the Fort Wayne and Butler railway. The election is fixed for September 18 and the votes will be registered at the usual voting places in Springfield township.

MASONS GO TO ROME CITY

FUNERAL OF ADIN W. GAUNTT ON THURSDAY.

Members of Fort Wayne Lodge of Perfection Will Attend—Other Deaths and Funerals.

The remains of Adin W. Gauntt, who died at Knoxville, Tenn., from acute pericarditis, arrived in the city this morning and were taken at once to Rome City in charge of Will H. Peltier. The funeral services will be held at that place Thursday morning at 10:30, in charge of the Kendallville Commandery, Knights Templar, and the Rome City Masonic lodge. DEFENSE IN POWERS CASE

SOME WITNESSES WHO REVEAL DAMAGING FACTS.

One Witness Smelled Powder Smoke in the Executive Building After the Murder.

Georgetown, Ky., Aug. 7.—When the Powers case was resumed today the prosecution was granted a subpoenea duces tecum on State Auditor Coulter, requiring him to bring his records into court. The is done in an effort to contradict the testimony of Former Auditor Stone, who testified that he discharged W. H. Coulton in December and charged him with stealing $1,000.

The prosecution announced that it expected to show by the record that Culton was paid his salary in both December and January, and by other witnesses to prove that since that date Stone had recommended Culton to various people as being entirely trustworthy. The defense was granted an attachment against E. E. Hogg, Culton's brother-in-law, and attorney who had been subpoenaed but failed to appear as a witness.

W. J. Lewis, of Frankfort, was the first witness heard today. He said that Goebel fell at least ten feet from the spot marked by the prosecution.

George L. Barnes, who was a clerk in the state auditor's office, gave a detailed account of the occurrence on the state capital grounds on the day of the shooting. He heard several persons say the guilty parties were being concealed in the executive building and ought to be blown up. Barnes said that after he went back into the executive building he smelled smoke, which he supposed was the result of the shots. He saw Whitaker arrested by a party of citizens. They took several pistols from him. Prior to the assassination, witness saw a rifle in the vault at the auditor's office. It formerly belonged to Frank Roberts, who had since been appointed a clerk in the census bureau at Washington.

Witness talked with Roberts about the disappearance of the gun, but the court ruled that he could not detail the conversation, neither Powers or Youtsey being present when the talk occurred.

John B. Hurst, of Corbin, testified he was in Frankfort several times in January. The last time he went was with the mountaineers, January 25. More than half of the men were armed.

He contradicted several of the statements of Robert Noakes. Hurst declared that the men in the mountain army were average mountain citizens and closed by stating that he himself had been a delegate to the republican national convention.

"Did you see any of the alleged assassins of Governor Goebel at that convention?" asked Attorney Golden.

The witness said he did not, but afterwards said he saw ex-Governor Taylor there.

"Were there any of the others who were in that armed crowd that went to Frankfort at the Philadelphia convention?" asked Attorney Golden.

The witness said he did not see any such persons there. Ex-Governor Brown objected to the manner of the examination and there was a hot exchange of words between him and Golden.

Hurst admitted that he himself had been indicted and tried for forgery at Knoxville, Tenn. He was asked concerning another alleged forgery at Pineville, but the defense objected.

The court allowed the question to be answered and the witness admitted that he was charged with the crime, but that there was no prosecution.

Some years ago one of the biggest railroad corporations of this country employed a confidential peacemaker, with the idea of preventing suits, as far as possible, for personal damages. It has proved a profitable innovation and is being taken up by other railroads.

"The most ancient and most noble Order of the Thistle," which has just been conferred upon the Earl of Hopetoun, is the smallest of the three great orders of knighthood in point of numbers, and the longest in point of title. It consists of the sovereign and British Princes and 16 knights.

It is officially estimated that the wheat crop of India is 184,000,000 bushels, against 238,000,000 bushels last season, and 227,000,000 bushels the average of five years past.

ENGINE TO MANILA

BASS WORKS WILL BUILD TANDEMS FOR FILIPINOS.

THREE LARGE EXCURSIONS

TO ROBISON PARK, TO ROME CITY, TO WINONA LAKE.

AN UNFORTUNATE MOULDER

BERNARD KRIEG IS BADLY WOUNDED AT BASS WORKS.

J. E. Nobie yesterday succeeded in closing a contract for the Bass Foundry and Machine company to build a tandem compound Corliss engine, with cylinders 12 and 22 by 36 inches, to be shipped to Manila as soon as completed, for service in a big refinery. This machine is an exact duplicate of tandem engines built at the Bass works two years ago and which are now rendering such excellent service in a big establishment in Manila. The Bass company has placed machinery in all of Uncle Sam's new possessions, including Cuba, Hawaii and the Philippines.

THE M'CLELLAN INQUEST.

Engineer T. H. Gould and Fireman J. E. Gaskins, who were on the engine hauling passenger train No. 38 when it collided with a freight train at Hanna and killed Conductor John A. McClellan, went to Hanna today to attend the coroner's inquest. The verdict of the coroner will undoubtedly be in accordance with the account of the accident published in The Sentinel the day following its occurrence.

KILLED IN A WRECK.

Chicago, Aug. 7.—George K. Lowell, general superintendent of the Chicago, Indianapolis and Louisville railroad (Monon route) gives out the following official account of the wreck on the road which occurred at South Raub this morning:

"The southbound Monon passenger train No. 3, leaving Lafayette at 12:40 this (Tuesday) morning collided with a light engine at South Raub, ten miles south of Lafayette. James Hudlow, fireman of the passenger, was instantly killed. Henry Whitside, engineer of the passenger, scalded, and Freight Brakeman Eugene McCool bruised. These were all the casualties. None of the passengers was injured as the cars did not leave the track."

ALL ENGINES IN SERVICE.

The eastern division of the Wabash, which for awhile was not very busy, suddenly finds itself with all the traffic it can handle. Four engines, which had been "white-leaded" and were standing at the roundhouse, have been placed into service and four have been borrowed from other divisions. Still the power is inadequate to the demand and other engines will be sent here to help out. The bulk of the freight is grain.

HEALTH CONDITIONS AT SHOP.

Henry Moellering, one of the veterans in the Pittsburg machine shop, was taken quite ill while at work yesterday. He is today unable to leave his home, but it is believed the attack is only temporary and that Mr. Moellering will soon be at work again. Other shopmen absent on account of sickness are H. Beucke, H. J. Meyer, James Burns, Henry Geerken and J. W. Burlage. These absentees are fully offset by the returning ones who had been on the sick list, included being Henry Tonsing, F. X. Miller, Henry Beckness, William C. Zwick and F. B. Lindemuth. The latter was injured two weeks ago.

SEVERAL EXCURSIONS.

The Pennsylvania, the Nickel Plate and the Grand Rapids and Indiana road each had a big excursion today. The former road brought down from Plymouth to Winona Lake a Sunday school excursion party which numbered about 500 people. A special train was sent out for that purpose.

The Grand Rapids and Indiana company ran excursions from the south and from the north into Rome City and carried about 750 people into the resort. This is "republican day" at Island Park and one of the chief attractions is ex-Governor Taylor, of Kentucky. He passed through the city this morning on the excursion train from the south.

The Nickel Pate brought in over 500 people from Leipsic, Ohio, and points this side of that city this morning, the occasion being the annual outing of the Leipsic volunteer fire company. The street car company had fifteen cars in waiting at the depot and the excursionists boarded them and went to Robison park, where they are enjoying themselves. The train arrived at 9:45 o'clock and will leave for Leipsic at 6:30 this evening. It consisted of ten coaches and a baggage car, was hauled by engine 21, with Engineer Charles F. Merriett at the throttle, and was in charge of Conductor Hart. The Nickel Plate has been very successful in all its excursions to this city this summer and District Passenger Agent Asterlin no doubt finds considerable gratification in this fact, since it is due in a great measure to his effort in that direction.

GEIGER IS ON DUTY.

William F. Geiger, late agent for the Adams Express company, has been duly installed in his new office, clerk for Purchasing Agent Frank Brown, of the Pittsburg. He arrived in the city Sunday evening and yesterday commenced work.

AFTER THE MONON.

Indianapolis Journal: "It has been currently reported in New York financial circles that J. P. Morgan & Co. have sold their holdings in the Monon railroad to the Pennsylvania and Vanderbilt interests. Such rumors are not new, but they come this time with more than the usual authenticity, and some credence is being given them. It is said that the Pennsylvania wants a short line to Chicago from Indianapolis, and the Monon is the shortest of all. The Pennsylvania now leases the Lake Erie and Western from Indianapolis to Logansport, and does not own a through line to Chicago. If it acquires the Monon it will have things its own way. The Vanderbilts also want the Monon to keep it from interfering with the Big Four."

A MOULDER BADLY BURNED.

Bernard Krieg, a moulder at the Bass works, residing on Lafayette street, was the victim yesterday afternoon of an accident that will cause him many days of pain and probably disable him for several weeks. While carrying a crucible filled with molten metal, he slipped and fell and the hot contents of the vessel spilled over his feet, burning one of them most seriously. The city ambulance was called to convey the injured man to his home, where he received all possible aid for alleviating the pain of the wounds.

INDUSTRIAL NOTES.

William Turner, a train crew caller for the Nickel Plate, has returned from Niagara Falls, where he spent two weeks.

Machinist J. T. Lewis commenced work in the electric works this morning. He was employed there two years ago.

W. J. C. Aumann, of the Pittsburg shops, is off duty today on account of injured eyes. He got some emery dust in the optics.

Harry Fitzpatrick has resumed his old place, that of wheel inspector for the Pennsylvania shops, after an absence of several months.

Ed Challenger, clerk in the Pennsylvania shops, is preparing for his summer vacation. He will go to Rome City next Friday, expecting to remain two weeks.

Shop Draughtsman H. S. Borhek and Round House Foreman George Telley, of the Pittsburg, are among the sick and absent ones today. Neither case is serious.

Walter Stanley, caller of Nickel Plate crews, is taking a couple days' recreation. He is at Claypool fishing today. William Turner is calling crews in the meantime.

Mrs. McMahon, of Broadway, wife of Passenger Conductor Sylvester McMahon, of the Pennsylvania, has so far recovered from her recent illness as to be able to attend to her household duties.

Mrs. Harmon, of Madison street, wife of the patternmaker at the Western Gas Contsruction works, has returned home, after an absence of three weeks, during which she visited in Chicago.

C. R. Lunas has taken a position as brakeman on the Nickel Plate. He is a telegraph operator and for some time was on the extra list. But he was not sufficiently employed, hence his change of occupation.

Train crews on the Boston and Albany were recently given an increase in wages, and as they get better pay than men in the same lines on the New York Central they fear a reduction will be ordered when the road passes to the Central.

Work will be begun at Bellefontaine on a building to be occupied by the railroad branch of the Young Men's Christian association. The contractor receives $5,500 for its erection, and President Ingalls, of the Big Four, gave half the sum required.

Conductor Sylvester McMahon, of the Pittsburg, rescued a little boy from a runaway accident and thus averted serious injury to the little fellow. Mr. McMahon grabbed the lad just as he was going over the dashboard against the frightened animal's heels.

Grant Gleason is engaged in constructing a merry-go-round for Harry Templar, of the electric light offices, which will be placed in service at the fairs this fall when finished. The merry-go-round will be an expensive affair and will be operated by two small steam engines. Mr. Gleason will have charge of it.

Nickel Plate engine 153 has gone to the shops for general repairs.

Al Baer, Nickel Plate engineer, is on duty again, after a visit of several days with his brother in Chicago.

Road Supervisor A. B. Adams and Bridge Superintendent W. S. Danes, of the Wabash, are in the city today.

It is official announced that on September 3 the Southern Indiana will run its first passenger train into Terre Haute.

Henry Kammeyer, engine hostler at the Nickel Plate round house, has recovered from an illness which kept him from work a week.

Conductor Howley, of the Nickel Plate, is enjoying the first lay-off of the year. He will spend a few days in visiting friends in another city.

Jacob Hilgemann, a construction man, has returned from Detroit, where business for the Fort Wayne Electric company called him several days ago.

One of the Baltimore & Ohio's new monster freight engines on Friday hauled in one train through Akron, Ohio, 101 cars, twenty-two loaded and seventy-eight empty.

Oliver J. Hebert, jr., night clerk in Foreman P. J. Scheid's office at the Pittsburg roundhouse, has returned from Chicago, where he spent ten days in viewing the sights.

Leo Boyer, a laborer in the Wabash yards, was summoned to Lima this morning by a telegram stating that his sister was very sick and no hopes of her recovery were entertained.

It is believed that the next move of the Illinois Central will be to acquire a line into Nashville. It is thought this road is back of the building of the Tennessee Central.

Last Thursday the Continental limited on the Wabash was hauled from Ivesdale to Millmine, 10.8 miles, in eight minutes, or at an average speed of eighty miles an hour.

A. Wilson, plumber at the Pittsburg shops, who was the guest of his brother-in-law, Ed France, at Rome City several days, returned last night and this morning resumed work in the shops.

R. Premmer, who was visiting out of the city, and T. H. Gallivan, who was attending to some private affairs about town, reported for duty on the Nickel Plate yesterday. They are brakemen.

The Evansville and Terre Haute is hauling melons north by the trainload. Last year this road handled over 1,800 carloads of melons, and this year the business will be in excess of that of 1899.

Fireman C. Jerome, of the Nickel Plate, has gone to Cleveland to join his wife, who went there a week ago. They will return here the first of next week, when Mr. Jerome will resume his duties on the road.

Some of the Vanderbilt fast freight lines are accused of absorbing Chicago switching charges which shippers are required to pay. It is equivalent to cutting rates, because it is done to influence business.

Engineer M. McCarthy and Fireman T. Maughan have been assigned to Nickel Plate engine 98, which is just out of the shops after general repairs. They will have a through freight run on the west end of the road.

Mr. Patterson and J. Gribbons, machinists, took positions in the Pittsburg shops this morning. Mr. Patterson is a Fort Wayne man. He learned his trade in the Pennsylvania shops in this city, but for ten or twelve years has been working in the company's shops in Wellsville.

G. J. Wirth has returned from Sandusky, Ohio, where he spent a two weeks' vacation with relatives. He resumed work in the Pennsylvania telegraph office yesterday. Operator C. A. Robbins is now taking a vacation.

The 5 to 10 per cent. increase in wages of the engineers on the Southern railroad goes into effect on August 20. This is simply a restoration of the cut that was made in the wages in 1893. There are 780 engineers on the Southern.

The Fort Wayne Electric company is preparing to install an electric light plant at Frankfort, Ind., and today shipped a car load of electrical machinery to that place. Frankfort is now the official headquarters of the Toledo, St. Louis and Western road.

Thomas Welsh, the veteran watchman, resumed charge of the blacksmiths' gate at the Pittsburg shops this morning, after being sick in St. Joseph hospital for a few weeks. Casper Lehmkuler, who had charge of the gate during Mr. Welsh's absence, has returned to his duties at the forge.

Indianapolis Journal: "The Pennsylvania Railroad company, without any great display, is increasing the pay of its men at several important points. The Pennsylvania lines made no reduction in pay of men when other roads did, and as a consequence any advance now made is appreciated by those benefited."

The inter-state commerce commission will employ inspectors to see that the law requiring railroads to have safety appliances on all freight cars is carried out. Only 1,000 of the 54,000 cars operated by the Baltimore and Ohio have not been supplied, and these will not be hauled until the improvements are made. The Pennsylvania has also sidetracked all cars not fitted according to law.

The resignation of Local Conductor Charles, on the west end of the Nickel Plate, has resulted in several changes. Conductor Denbow has been transferred to the Knox and Stony Island runs and Conductor VanMeter has succeeded Mr. Denbow on the local between this city and Knox. The place in the through freight service vacated by Mr. VanMeter has been given to Conductor J. C. House, who was on the extra list.

ROME CITY COTTAGERS' TRAIN.

ARMY TRANSPORT ASHORE.

New York, Aug. 7.—The Atlas line steamer Alene, Captain Long, which arrived today from West India ports, reports the United States army transport McPherson, from Santiago for New York, ashore at Fortune Island. From what could be learned on board the Alene, it appears the McPherson was proceeding at full speed on the 22d inst., and more than two miles out of her course, when she went ashore. In order to lighten her the troops she carried, consisting of over 400 men of the Fifth infantry, were landed on the island. A considerable quantity of stores were also transferred to the shore. Kedge anchors were put overboard. The steamer then attempted to back off into deep water, but without success. The Alene made fast to the transport and hauled steadily for six hours, but failed to float her. Cable reports from Nassau state that the transport was floated on the 5th uninjured and proceeded.

DR. LIEBKNECHT DEAD.

Charlottenburg, Aug. 7.—Dr. Liebknecht, the well known member of the reichstag and one of the leaders of socialism in Germany, is dead. He was born at Geissen in 1826 and was editor of the Vorwaertz, the socialist organ.

The mackerel fishing on the south and southwest coasts of Ireland has been a failure this year.

PREPARE FOR INSTITUTE.

The joint institute of the farmers of Marion and Pleasant townships will be held in the grove at the M. E. church on Thursday, August 30. A meeting was held last Saturday evening at Poe for the purpose of arranging a program, and the election of officers resulted as follows:

President—Charles Dalman, of Pleasant township.

Secretary—Nettie E. Hubler, of Marion township.

OFF TO A PICNIC.

Today a large Sunday school picnic is being held in Robinson's grove in Eel River township, and quite a number from the city left this morning to be present. It is a union affair, and it is expected that at least ten Sunday schools will be present. Among the speakers is W. F. DeVilbiss, of Washington township.

CELEBRATING A BIRTHDAY.

Joseph Harter, the well known blacksmith at 170 West Main street, is celebrating his seventy-fifth birthday anniversary today and many friends are extending congratulations. Mr. Harter came to Fort Wayne fifty years ago from Starke county, O., and is remarkably active and vigorous.

SUNDAY SCHOOL PICNIC.

The Sunday school of Salem Reformed church in Perry township, twelve miles north of the city, will give a picnic in Garman's grove August 25. Fourteen Sunday schools have been invited, and it is expected that a very large crowd will be in attendance. It is hoped that a number of spenkers from this city and elsewhere will be in attendance.

GOES TO SALEM CENTER.

Dr. O. B. Sheets, who recently graduated from the Fort Wayne College of Medicine, has determined to locate at Salem Center, in Steuben county, for the practice of his profession. Dr. Sheets is now in the city purchasing his office equipment, and will begin practice within a few days.

Salesroom 98 Calhoun street. Store open evenings.

THE DOUGLAS SHOE.

The best advertised and consequently the best known shoe in the world today is undoubtedly made by the W. L. Douglas Shoe Co., of Brockton, Mass. The one idea of this company has always been to sell a shoe for $3.50 which equals in every way the $5 shoes of any other concern. They are able to do this on account of there being no middle man's profit, as the goods are sold direct from the factory to the wearer. In 60 of the principal cities of the country they have their own retail stores. The goods are made in all sizes and widths, and few shoes equal them for style and durability.

The factory at Brockton employs over 1,100 hands, and all labor troubles are settled by the state board of arbitration. Nothing but union labor is employed, and pay about the best average wages of any shoe workers in the United States. The factory pay roll amounts to $17,435 per week. This company makes shoes for men only, and it is their proud boast that over one million men wear them.—Denver (Colo.) Post.

A TRAITOR IN CAMP

Proof Found of Treachery Among the Allies in Chinese Viceroy's Papers.

CONGER AGAIN APPEALS FOR AID.

New York, Aug. 7.—A dispatch to the Journal and Advertiser from Shanghai says:

Colonel Meade, of the marine corps, has received by native courier a message wrapped in pigskin signed by Minister Conger as follows:

"Help at once if at all. Besieged in British legation. No government Pekin except military chiefs, who are determined on destruction foreigners."

The Shanghai correspondent also says that in the papers of the viceroy at Tien-Tsin was found a receipt for one hundred taels paid to the boxers for the head of Major Waller, of the United States marines, who was killed at the first battle of Tien Tsin.

Rev. Dr. Evans, an English missionary, searched the yamen of the Tien Tsin viceroy and found in his private papers full accounts of the doings of the foreign forces during the siege, with lists of their killed and wounded.

He also found promises of pensions to the families of all slain boxers.

He found receipts for arms and ammunition from each village. This is proof of the official nature of the boxer movement, and also of the treachery of some one in the ranks of the allies.

The Chinese left five million taels in the treasury in Tien Tsin.

From a trustworthy native source it is learned that General Ma was murdered by a boxer. There are 30,000 troops at Tang Tsun under General Sung, 40,000 at Pei Tsang under General Tung-Full-Siang, 40,000 at Pekin already and more arriving daily, and 60,000 in camp twenty miles west of Tien Tsin.

LITTLE NEWS GETS THROUGH.

London, Aug. 7.—The special dispatch to the Associated Press from Tien Tsin, dated Sunday, August 5, 8 a. m., via Shanghai, August 7, is the only press message which has been got through from Tien Tsin since the battle at Peitsang. Various Tien Tsin dispatches of earlier dates allude to reconnoitering encounters with the Chinese preparatory to a general attack on the Chinese positions, which are five miles long. The reconnoisance has developed that the Chinese are in greater strength than expected and the allies, according to a news agency dispatch from Tien Tsin dated August, are each day pushing nearer to the Chinese positions.

The Russians who have been fighting around Tasi-Chow, are reported according to a dispatch from Shanghai, dated August 6, to have killed 3,000 Chinese.

The taotai of New-Chwang has refused the Russian demand to give up the forts there.

A dispatch from Hong Kong, under today's date, says trade with the West river is at a standstill.

It is now fully confirmed that a fourth brigade of Indian troops has been ordered to China.

LI'S REPORT UNCONFIRMED.

London, Aug. 7.—The parliamentary secretary of the foreign office, Mr. Broderick, in the house of commons today, answering a question, said her majesty's government had informed the Chinese government that its members will be held personally responsible if the members of the foreign legations or if other foreigners at Pekin suffer injury.

Mr. Broderick added that her majesty's government did not think any useful purpose would be served by further communications.

Answering another question, Mr. Broderick said her majesty's government had no confirmation of the statement attributed to Li Hung Chang to the effect that the foreigners had left Pekin for Tien-Tsin under escort.

SAYS MINISTERS LEFT PEKIN.

London, Aug. 7.—4 a. m.—A Shanghai special dated August 6, says:

"Li Hung Chang has officially informed the consuls that the ministers left Pekin for Tien-Tsin last Friday, August 3, with General Yung Lu in command of the escort. The consuls are by no means disposed to credit Earl Li's statement."

All other reports that have reached London up to this hour indicate that the ministers have not left Pekin.

WORKING UNDER OLD ORDERS.

Washington, Aug. 7.—It is said at the state department that the reports from Constantinople that Mr. Griscom, the American charge d'affaires, is renewing the request for a settlement of the American claims, are due to the original instructions from Washington and not to any recent word to him. These instructions were to the effect that the matter be pressed continually, about every fortnight, in order that there might be no lapse of the negotiations. Mr. Griscom appears to be keeping up the semi-monthly reminder with great regularity, as word comes about every two weeks that he has presented another demand. They are all to the same effect, that a settlement be made and an exact time fixed for carrying it out.

MR. WU TO RETURN.

Washington, Aug. 7.—A message has been received at the Chinese legation saying that Minister Wu, who has been spending several days at Cape May, will return to Washington this afternoon.

FRANCE WITHOUT NEWS.

Paris, Aug. 7.—At a cabinet council today it was announced that the French government had received no advices tending to show that the advance of the allied forces on Pekin had been decided upon.

ANOTHER SMALL DIVIDEND.

New York, Aug. 7.—The directors of the Standard Oil company, of New Jersey, have declared a dividend of $8 per share, payable September 15. In June 10 per cent. was distributed and in March 20 per cent.

WILL HOLD A RACE MEETING

E. G. CONNOR IS SATISFIED WITH THE OUTLOOK.

The Races Will Occur During the Week of September 17—Money in Sight.

Fort Wayne is to have a big race meeting next fall and the fastest horses in the United States are certain to contest. E. G. Connor, secretary of the Detroit Driving club, arrived in Fort Wayne yesterday, and in company with a local committee visited the merchants and met with enough encouragement to guarantee a race meeting. Mr. Connor asked for $1,500 from Fort Wayne citizens, to which he agreed to add $500 and give two merchants' stakes. More than $1,000 of the $1,500 has been subscribed and several citizens have guaranteed the balance, which they hope to collect from the business men. Mr. Connor is arranging to open an office in Fort Wayne and during the next five weeks will make Fort Wayne his headquarters. He will send representatives to all the big trotting meetings and has received assurances already from horse owners that they will enter here. The track has a national reputation, as it was here Robert J. paced the mile that dethroned Mascot as king of side-wheelers. Cheseeus still holds a world's record made on the Fort Wayne track, and many other great horses made their first reputations on the local track. The stakes offered will be of $800 and $1,000 each. There will be eighteen or twenty races.

BADGER STATE REPUBLICANS.

Milwaukee, Aug. 7.—Wisconsin republicans are gathering in Milwaukee in large numbers today preliminary to the state convention, which meets tomorrow to select a complete state ticket. Robert M. LaFollette, the former congressman of the Second district, will receive the nomination for governor without opposition, and the balance of the ticket will be made up of present incumbents. One of the chief features of the platform to be adopted is a plank which will probably be inserted advocating the enactment of a law at the meeting of the next legislature favoring nominations of state officers by a direct vote of the people.

THREE KILLED IN A WRECK

DISASTROUS MISHAP ON THE MONON ROAD.

Passenger Train Derailed Near Lafayette and Many are Injured Besides Those Killed.

Lafayette, Ind., Aug. 7.—At South Raub, ten miles south of here on the Monon road, passenger train No. 3 collided early today with a freight engine and caboose standing on the side track. The passenger was running twenty-five miles an hour when the crash came.

Charles King, the brakeman who operated the switch, is missing, but whether his body is under the debris, or whether he fled, is not known.

DEAD.

Lewis Raub, freight engineer.
Thomas Craft, freight fireman.
Joseph Hudlow, passenger fireman.

Seriously injured—Henry W. Whitsell, passenger engineer; Eugene McCool, freight brakeman; Stephen Friely, Chicago, traveling man; W. N. Tyson, Crawfordsville.

Slightly injured—J. F. Pope, of Williamsport; Mrs. Daniel Schrader, of New Albany; Charles Davis, of Crawfordsville; Daniel Schrader, of New Albany; C. H. Callahan, of Bloomington, freight conductor; Victor Belecher, freight brakeman, and Mrs. Louis Woodson, of Chicago.

GOLD GOING TO LONDON.

New York, Aug. 7.—Baring, Magoun & Co. have arranged to ship $2,000,000 in gold to London tomorrow. This amount may be increased. A representative of the firm explains that a part of this shipment is to meet the requirement for deposits of 5 per cent. of subscriptions for the war loan, but a part of the shipment is also a regular exchange operation. It was announced here today that subscriptions to the British war loan had closed in London, and as a consequence no more would be received here.

KILLED ONE; OTHER WILL DIE.

Cincinnati, O., Aug. 7.—John W. Jolly, of Newport, Ky., this afternoon shot and killed Lottie Kleekamp, his wife's sister, and mortally wounded his wife at the home of their parents at Ninth and Overton streets, Newport, Ky. A family quarrel caused the tragedy.

GENTRY AND PATCHEN TO RACE

Olean, N. Y., Aug. 7.—The special races have been arranged for Thursday at the new track of the Jersey Farm association. John R. Gentry and Joe Patchen will contest in one and Coney and Anaconda in the other. Purses of $2,000 have been hung up for each race.

HOLDING THE INQUEST.

Acting Coroner Dr. C. E. Barnett is this afternoon holding an inquest in the case of Edward Schwier, who met death by drowning in the Maumee river Sunday afternoon.

Knights and Ladies of Honor have sold 500 tickets for the social at Elektron building tomorrow evening. The program will include a cake walk by Mr. Newhouse and Miss Suttenfield and by twin girls, and a dance after refreshments.

Mr. and Mrs. A. W. Paine, who have been the guests of Mrs. Paine's parents, Mr. and Mrs. B. W. Skelton, have returned to their home at Toledo.

Mr. and Mrs. C. R. Jenne have as their guest Mrs. Robert Render, of Antwerp, Jefferson county, N. Y. The ladies are sisters and have not

Mr. and Mrs. W. W. Williamson, of Columbia City, are guests at the New Avelne.

WILLING TO QUIT

PRESIDENT KRUGER SAYS HE WILL SURRENDER.

ANXIOUS TO END THE WAR

WANTS PLEDGE OF ULTIMATE DESTINATION.

BOERS IN PITIABLE PLIGHT

HARRISMITH TAKEN BY GEN. HECTOR M'DONALD.

Pretoria, Monday, Aug. 6.—It is stated positively that President Kruger is willing and anxious to surrender, provided a satisfactory promise is given as to his ultimate destination.

BOERS IN DESPERATE PLIGHT.

New York, Aug. 7.—A dispatch to the Herald from London says that a Lourenzo Marques correspondent of the Daily Telegraph states that a Frenchman just returned from the Boer frontier confirms the telegrams which have been received during the last few days describing the pitiable character of the Boer position. General Botha's commando, originally 750, now consists of only sixty-three, and other commandos have been reduced in like proportion, owing to desertions. The remaining burghers have divided into two parties, one for peace and the other for war.

The peace party is the stronger.

MACDONALD'S SUCCESS.

Cape Town, Aug. 7.—Railway communication with Natal has been reestablished by General MacDonald's capture of Harrismith. Heavy fighting at Eland's river commenced on Sunday and continued Monday. No details are obtainable, but it is believed that General Carrington and Gen. Ian Hamilton relieved the garrison at Rustenburg, which is retiring to Senust.

ROBERTS MAKES REPORT.

London, Aug. 7.—Lord Roberts reports to the war office, under date of Pretoria, Aug. 6, as follows:

"Harrismith surrendered on August 4. The neighboring country seems to be kept. Kitchener is with the force south of the Vaal river.

"He was joined yesterday by a strong detachment of Brabant's horse and the Canadian regiment.

"The Boers attacked the garrison at Eland's river on the morning of August 4. Information was sent to Carrington, who was on the way to Eland's river.

"Ian Hamilton, who reached Rustenburg yesterday, reported hearing heavy firing in the direction of Eland's river.

"Today the firing seems more distant, which looks as if the Eland's river garrison had been relieved and was retiring towards Serust."

COLONIES IN FULL ACCORD.

London, Aug. 7.—The secretary of state for the colonies, Mr. Chamberlain, in reply to a question in the house of commons today, said he had already made himself acquainted with the views of Canada and Australia in regard to the main points of the South African settlement. He added that they were completely in accord with her majesty's government as to the necessity for the annexation of the Orange Free States and the Transvaal to the British empire, and the establishment of a government, supported by a military force, with the ultimate extension of representatives of the government.

WELL-KNOWN LADY DEAD.

Mrs. John McFadden died Sunday at her home in Bluffton at an advanced age. Mrs. McFadden was the wife of a pioneer business man of Bluffton, and had a wide circle of acquaintances. The funeral services were held today. The deceased was an aunt of Mrs. G. R. Hench and Miss Lena Provines, of this city.

POLICE COURT.

A trio of drunks confronted Mayor Scherer in police court this morning. Jack Devany had been arrested while drunk on a suspicion of having stolen a pick and shovel from Hattersley & Sons. He was fined on the charge of drunkenness and the larceny charge was not pressed. He went to jail. Jack Case was also sent to jail on a charge of drunkenness. John Murphy, who had also been indulging too freely, was released.

EMPLOY NEW ENGINEER.

Chairman Eggemann, of the board of public works, has returned from Chicago, were he arranged for Engineer Scott, an employe of the windy city, to come to Fort Wayne at intervals during the construction of the big sewers and give the lines in the tunnels to the workmen. Mr. Scott has had experience in tunneling and has tools which will permit him to make the measurements satisfactorily. Unless used to tunnel work it is impossible for a person to stay underground and, therefore, it was necessary for the city to employ another engineer.

DIVORCE CASE STILL PENDING

WIFE CLAIMS HUSBAND HAD NO AUTHORITY TO DISMISS.

Francis E. Farra Makes Affidavit That Wife Agreed to Dismissal Court Notes.

A few weeks ago Francis E. Farra was made defendant in a divorce suit commenced by Rosanna Farra, and a few days later the husband appeared in court, paid the costs and Judge Vesey dismissed the case. The Sentinel printed an item noting the dismissal, and the wife then went into court and denied that she had agreed to dismissal. Judge Vesey ordered the case replaced on the docket. Today the husband, through his attorney, R. B. Dreibelbiss, filed an affidavit in court explaining that after the commencement of the divorce suit he had held a conference with Mrs. Farra and agreed to pay her $250 to dismiss the suit and pay the costs After she had received the money she failed to see an attorney and make a written agreement. The case, of course, is still pending and as it is the third time the couple have been the principals in a divorce suit the judge will probably have an opportunity to hear evidence and settle their marital troubles.

NOTES.

The county commissioners have granted to the New Haven Telephone company a franchise including the right to construct lines from New Haven to Gar Creek, Shirley City, Baldwin, Edgerton, Adams station, Maples, Geoglein, Harlan, Cedarville and Leo. George W. Miller, president of the New Haven company, made the application.

Judge Vesey gave judgment for $300 against Christian Bohn in favor of William A. Bohn.

Judge Vesey yesterday admitted Edwin M. Hulse to practice at the Allen county bar.

Motion for a new trial has been filed in the divorce case of Flora B. France vs. Philip France.

Judge Vesey granted Mary L. Geyer a decree of divorce from William Geyer.

Judge Vesey has decided that Dr. John McCausland shall pay to Mrs. Catherine J. McCausland the sum of $40 a month.

TO CONSECRATE A BISHOP.

Washington, Aug. 7.—Archbishop Martinelli, the papal delegate, has been invited to attend the consecration of Bishop-elect Henry Moeller, of Columbus, Ohio, on August 15, but owing to other duties, he probably will be unable to participate in the brilliant festivities, which will bring together many prelates of the country. Dr. Moeller succeeds the late Bishop J. Ambrose Watterson, who died last year.

HAND BADLY CUT.

W. F. Bertram, a truckman employed in the Pennsylvania freight house, had his right hand badly cut Monday. He was handling some sheet iron when one of the plates slipped. Mr. Bertram attempted to grasp it, and the sharp edge made a cut across the palm to the bone. Dr. E. J. McOscar sewed up the injury.

MARRIAGE LICENSES.

Johnson L. May and May A. Adams.

Buell C. Webster and Jennie Graham.

FROM THE TRENCHES

The Chinese Were Routed by the Advancing Legions of the World's Allies.

CHAFFEE REPORTS THE BATTLE

[Copyrighted, 1900, The Associated Press.]

Tien Tsin, Sunday, Aug. 5, 8 a. m, via Shanghai, Aug. 7.—This morning at daylight 16,000 allies attacked the Chinese at Peitsang and forced the enemy from the trenches. The Americans who participated were the Ninth and Fourteenth regiments, Reilly's battery, and the Marines. A heavy battle is still in progress.

GENERAL CHAFFEE REPORTS.

Washington, Aug. 7.—The war department has received the following cablegram from General Chaffee:

"Che Foo, Aug. 7.—Adjutant General, Washington—Tien Tsin, 3rd.—Conference today decided battle Sunday. Chinese entrenched east and west through Peitsang. Rest of Chinese protected by flooded ground practically unassailable.

"Japanese, English, American forces, about 10,000 strong, attacked Chinese right, west of river, in flank. Other forces, Russian, French, about 4,000 strong, opposite side, between river and railroad. Chinese position apparently strong. Army reported 30,000 between Pehang and Yang-Tsun or crossing of road Pei-Ho.

"Yang-Tsun objective. Our force 2,000 and battery. Conemaugh arrived.

"Sixth cavalry left at Tien Tsin for guard of city and awaiting mounts. Ministers safe on 28th of July. Chaffee."

HARD FIGHTING AHEAD.

Washington, Aug. 7.—The dispatch of General Chaffee, written before the battle of Sunday, confirms the dispatches received at the navy department yesterday and also the press dispatches received today concerning the attack on the Chinese at Peitsang.

General Chaffee's dispatch, dated Friday, was not sent from Che Foo until today, an inexplicable delay. The most interesting feature of the dispatch is the information regarding the positions of the Chinese army and the fact that the advance upon Pekin is made by two columns, one on each side of the Pei river. The international forces as given by General Chaffee would aggregate about 14,000 men, while the other dispatches say 16,000, but this difference can easily be accounted for, as more men might have been available when the movement began than when the conference was held on the 3d inst.

This conference is supposed to have been between the several commanders present at Tien-Tsin. It is evident that the foreign commanders do not underestimate the task which they have before them, as the dispatch shows that a thorough reconnoisance of the Chinese position had been made and that even before the advance of the international force from Tien-Tsin the commanders were in possession of full information relative to the Chinese position.

This is one of the most welcome features of the dispatch, as it proves conclusively that the international column did not blunder upon an entrenched position of the enemy.

According to the war department map the town of Peitsang covers both sides of the river, but the main portion of it is on the left side, where the Japanese, English and American forces had arranged, according to General Chaffee's dispatch, to attack the enemy in flank.

The left of the Chinese on the other side of the river, according to the dispatch, was partially protected by flooded ground and practically unassailable for that reason.

According to the map there is a lake five miles from the river at this point and the ground may have been flooded from this lake through the dykes and canals which gridiron the country thereabout.

The Russian and French forces were to attack the enemy's left on the right bank of the river, between the river and railroad. This makes it probable that the flooded district only extended to the line of the railroad, which at this point is about a mile and a half from the river. General Chaffee's dispatch also shows another important feature of the plan of campaign agreed upon by the international commanders.

It is that the present objective point of the column is Yangtsung. This is a railroad town about fifteen miles beyond Peitsang, at the point where the railroad crosses the Pei river from the right on the way to Pekin.

Once in possession of this point the international force would have both the railroad and river in its rear for keeping open communication with Tien-Tsin.

It naturally would become the advance base from which operations on Pekin could be projected. At this point the river veers to the right and from it the column would have to move overland along the line of the railroad. The Chinese evidently are as much impressed with the strategic advantages of Yangtsung as the international commanders themselves, as General Chaffee says in his cable that the enemy is reported thirty thousand strong at the crossing of the road over the Pei river. Without doubt after the fight at Peitsang the Chinese force there, if the report of Admiral Remey that it would be forced to retreat proves correct, they retired to Yangtsung. There is no information as to the number of the enemy which met the advance at Peitsang, but judging from the casualties to the international force, it must have been large and may perhaps double the Chinese army which the column must encounter when it reaches Yangtsung. The general feeling at the war department is that, unless the Chinese generals have been completely demoralized by the Peitsang attack, there is very severe fighting ahead for the international forces and that the ground will be disputed all the way to Pekin.

RELIEF FORCE CHECKED.

London, Aug. 7.—3:40 a. m.—"The advance of the allied forces commenced today," cables the British consul at Tien Tsin, under date of August 4. This is the first official information received here that the attempt to relieve Pekin has begun. It is accepted as correct.

The British consul does not mention any fighting, but the Shanghai correspondent of the Daily Mail, telegraphing Sunday, says:

"The Pekin relief column is reported to have suffered a check. The Chinese are said to have adopted Tugela tactics, and after several hours of fighting to have retreated."

This is the only message received in London this morning bearing out the reports of Admiral Remey and Commander Taussig regarding an engagement at Peitsang. The fact that the advance did not begin until Saturday is taken to strengthen the accounts of a battle Sunday.

In the same cablegram, which was read in the house of commons, the consul at Tien-Tsin says: "News from the Japanese legation has been received up to August 1."

Therefore the edicts announcing the safety of the ministers on that date are confirmed.

HELD AS ACCESSORIES.

Rome, Aug. 7.—The brother and brother-in-law of Bresci, the assassin of King Humbert of Italy, have been detained by the police on the charge that they had fore-knowledge of the murderer's intention. The former says Bresci frequently practiced with a revolver.

MR. HAY'S ILLNESS SLIGHT.

New York, Aug. 7.—The Evening Post today prints the following from Newbury, N. H., dated last night, from Secretary of State Hay:

"The Evening Post: My indisposition is so slight it is not worth mentioning. John Hay."

BRYAN IN CHICAGO

CANDIDATE IS ON HIS WAY TO INDIANAPOLIS.

MET BY ENTHUSIASTIC CROWD

THRONGS GATHERED AT THE WAY STATIONS.

REFUSED TO MAKE SPEECHES

SAVING HIS VOICE FOR HIS ACCEPTANCE SPEECH.

Chicago, Aug. 7.—Hon. William J. Bryan, democratic candidate for the presidency, arrived in Chicago on the Burlington railroad at 9:30 a. m. today.

He was accompanied by Mrs. Bryan, their son, Governor and Mrs. Thomas, of Colorado, and Col. John I. Martin, sergeant-at-arms of the Kansas City convention. The party was met at the union depot by a local committee, several clubs and a large number of citizens, who gave them an enthusiastic greeting. The party was driven immediately to the Sherman house.

The first public appearance of the day was made by Mr. Bryan at Aurora at 8:20 a. m. He had just finished breakfast when he was called to the rear platform by the cries of a large crowd.

Hon. Samuel Alschuler, democratic nominee for governor of Illinois, greeted Mr. Bryan and was invited into his car. There were demands for a speech, but none was made. Instead, Mr. Bryan took his position on the steps of the rear platform and shook hands with the people as they crowded about.

SAVING HIS VOICE.

He told them that he desired to save his voice for the Wednesday ordeal and must, therefore, decline to talk.

"I have passed through Aurora many times," he said, as he pulled Mr. Alschuler up the steps, "and I have often wondered why you did not have a governor of your own living here, and I am glad to see that you are about to remedy the defect."

"And we," responded Mr. Alschuler, "have been wondering for several years why we did not occasionally have a president from Nebraska passing through our town."

Mr. Alschuler then introduced a number of friends and the train soonn moved out. As it started there was a cheer for "the next president" from the crowd.

Mr. Bryan retired at 11 o'clock last night, just after passing Creston, Iowa. At that place the train was met by a demonstrative crowd as it also was at Red Oak, but at these places the nominee declined to speak.

IN COOL ATTIRE.

When Mr. Bryan emerged from the train in Chicago he looked cool and fresh, clean and upright, appearing well prepared for an arduous day. Clad in light summer clothing, he was evidently prepared to go through the day with as much comfort as possible for a presidential candidate entering upon the first work of campaign.

A committee of citizens who met the incoming party was headed by Mayor Carter Harrison, National Committeeman Gahan, Robert E. Burke and Frank Wenter, the latter appearing as a representative of the German-American clubs of the city. These, with other leaders, were admitted inside the station gates. Their followers sent up a lusty cheer as the national leader came into sight, but notwithstanding the presence of probably a thousand people at the station there was scant ceremony at that point.

After a few hearty hand shakes Mr. Bryan and his party were escorted to waiting carriages and driven to the Sherman house.

The party made its way through the throng at the depot with some difficulty and Mr. Bryan was frequently compelled, during the short walk, to stop and shake hands with an especially insistent admirer.

Among the clubs at the depot were one or two German-American organizations, the Thurman club and the Nebraska Bryan club of Chicago.

THE LEADERS MEET.

At the Sherman house Mr. Bryan was immediately ushered into a parlor on the ground floor, where he was soon joined by Hon. Adlai E. Stevenson. The candidates greeted each other cordially, and, standing side by side, they shook hands with a great number of people. All the visitors were more or less enthusiastic and most of them vouchsafed immense majorities as the result of the coming election. One old gentleman threw his arms around Mr. Bryan's neck and promised him a thousand votes as the result of his own individual efforts.

START FOR INDIANAPOLIS.

In the party accompanying Mr. Stevenson were Mrs. Stevenson, Louis G. Stevenson and Miss Letitia Stevenson, all of whom made the trip to Indianapolis.

Samuel Alschuler, democratic candidate for governor of Illinois, and Mayor Harrison, of this city, joined the party at the hotel shortly after its arrival there. The crowds continued to file past Messrs. Bryan and Stevenson until 11:30, when the reception came to an end and the party prepared for the start to Indianapolis.

START FOR INDIANAPOLIS.

Shortly before 1 o'clock the parade was formed to escort the Bryan and Stevenson party to the special train which was to convey them to Indianapolis.

A few minutes later the party left the Sherman house and entering their carriages in waiting took their places in the line of march to the Illinois Central station, at the foot of Randolph, where the special Big Four train awaited the party.

Preceding Messrs. Bryan and Stevenson and party was the Cook County Democratic band, and following the carriages of the distinguished democratic leaders were the members of the Cook county democracy to the number of 350, and about 100 other local democratic politicians, who were to accompany the party to Indianapolis.

A cheering crowd lined the streets. The party at once boarded the train and at 1:30 p. m. the start for Indianapolis was made amid prolonged cheering from a crowd of several thousand, which had gathered to witness the departure.

INDIANAPOLIS PROGRAM.

Indianapolis, Aug. 7.—Many prominent men from distant states arrived today to participate in the Bryan-Stevenson notification meeting in Military park tomorrow afternoon. Senator James K. Jones, chairman of the democratic national committee, today talked with Mayor Taggart over the telephone and consented to preside at the notification exercises. The arrangement is for Mayor Taggart to call the meeting to order, to make a short speech as mayor welcoming the visitors to the city, and then turn the meeting over to Chairman Jones.

Congressman Richardson, of Tennessee, will make the speech notifying Mr. Bryan, who will at once reply. Governor Thomas, of Colorado, will make the speech notifying Mr. Stevenson, to be followed by the speech of the candidate for vice president.

Arrangements have been completed for the parade to Military park tomorrow afternoon. Local and Indiana democratic clubs will head the column, which will form at 1:15 p. m. at Pennsylvania and Georgia streets, and will move in two divisions.

The candidates and their party will leave the Grand hotel at 1:30 and will join the parade there.

Mayor Harrison, of Chicago, will, according to the announcement by Mayor Taggart today, preside at the mass meeting to be held at Tomlinson hall tomorrow evening. Overflow gatherings will occur in Monument place, near by.

JONES NAMES COMMITTEES.

Chicago, Aug. 7.—Chairman Jones, of the democratic national committee, gave out the list of sub-committees of the main body yesterday afternoon. Former Governor Stone, of Missouri, was named on the executive committee, and Norman E. Mack, of New York, was left off. The only representatives the eastern states have on this body are Committeemen Guffey, of Pennsylvania, and George Fred Williams, of Massachusetts. John R. McLean, of Ohio, is put at the head of the ways and means committee.

The list of committees follows, the chairman, vice chairman and secretary being first, second and third, respectively:

Executive Committee—James K. Jones, Arkansas; J. G. Johnson, Kansas; C. A. Walsh, Iowa; W. J. Stone, Missouri; H. J. Clayton, Alabama; Thomas Gahan, Illinois; D. J. Campau, Michigan; J. M. Head, Tennessee; J. M. Guffey, Pennsylvania; George Fred Williams, Massachusetts; T. D. O'Brien, Minnesota; Thomas Taggart, Indiana; J. C. Dahlman, Nebraska.

Ways and Means Committee—J. K. Jones, John R. McLean, Ohio; C. A. Walsh, Iowa; Urey Woodson, Kentucky; Adair Wilson, Colorado; R. E. Tillman, South Carolina; J. G. Johnson, Kansas; T. E. Ryan, Wisconsin; M. F. Tarpey, California.

Press Committee—J. K. Jones, Clark Howell, Georgia; C. A. Walsh, Iowa; Josephus Daniels, North Carolina; Norman E. Mack, New York; J. G. Johnson, Kansas.

Advisory Committee—N. C. Blanchard, Louisiana; John H. Osborne, Wyoming; John T. McGraw, West Virginia; H. M. Teller, Colorado; Fred T. Dubois, Idaho; D. C. Tillotson, Kansas; William V. Allen, Nebraska; J. E. Weaver, Iowa; Eugene Smith, Illinois.

REFUGEES RETURN

MANY COME FROM CHINA ON THE LOGAN.

ESCAPED FROM TIEN TSIN

WENT THROUGH BOMBARDMENT OF CHINESE CITY.

BRUTALITY OF THE ALLIES

RUSSIANS IN PARTICULAR GUILTY OF INHUMANITY.

San Francisco, Aug. 7.—Among the refugees from China who returned on the Logan were the wife of Prof. C. D. Tenny, of the Imperial university at Tien-Tsin, and her children. They were among those who took refuge in Gordon hall during the bombardment and escaped uninjured. She and her husband had been together in China for eighteen years. Prof. Tenny is now accompanying the allied forces on the march to Pekin as an interpreter.

Prof. O. D. Clifford and his wife also came home. They bring with them a baby girl, who was born in Tien-Tsin on May 13. Mrs. Clifford is the daughter of Dr. Robert Coleman, who came home on the Coptic last week. Prof. Clifford was connected with the Imperial university.

Miss Lillie M. Tahr, of Lincoln City, Ind., who has spent two years in Tien-Tsin, had three narrow escapes from the savage boxers. She found safety with many others in Gordon hall during the siege and ventured out one day, was struck by a fragment of a three-inch shell. On two other occasions she was shot at by riflemen, but was not hit.

The two children of United States Consul Ragsdale, who have returned to their home in the states, tell stories of exciting experiences similar to those of others who lived through the perilous times in Tien-Tsin.

The tales of Russian brutality are confirmed by Rev. Frank Haynes, a Methodist missionary. He thinks the present troubles will be ended within a year.

Many of the refugees from Tien-Tsin escaped with only the clothing on their backs. Among those who lost everything are Henry Smith and wife, an English couple. Smith was a broker at Tien-Tsin and had a fine home in the British concession.

Prof. O. D. Clifford, of the Imperial university of Tien-Tsin, who was one of the last to leave the besieged city, says:

"Looting by the allied forces began as soon as they got the upper hand. The Russians led in this and went to extremes. They are naturally cruel and expecting no mercy, they showed none.

"I was an eyewitness to eight cold blooded murders by them. The victims were old and infirm Chinese. The Russians stole everything in sight, looting the houses in the settlement as the Chinese would have done."

Rev. Horace W. Houlding, a missionary, whose labors were in south Chi-Li province, between Ho Nan and Shan Tung, escaped with seventy-five others from Pei-Tai-Ho, the resort north of Taku, on the British warship Humber.

Mrs. H. P. Montell, whose husband is a turfman at Tien-Tsin, with Mrs. Frank F. Davis, of Philadelphia, passed through a trying experience during the bombardment and fighting at Tien-Tsin, and took advantage of the first opportunity to leave the place.

SUN SCORCHES PITTSBURG.

Pittsburg, Pa., Aug. 7.—One dead and seven prostrations from the heat is the record for the past twenty-four hours. The fatal case was Jacob Reneker, aged 67 years, a well known stock dealer. Yesterday was the hottest day in two years, the mercury standing at 97 for several hours. At 11 o'clock today the thermometer registered 90, three degrees hotter than the same hour yesterday, which indicates that the record of Monday will be passed before sundown. The intense heat caused great suffering in the mills and factories and many workmen were forced to quit work for the day.

UNEVENTFUL DAY AT CANTON.

Canton, Ohio, Aug. 7.—President and Mrs. McKinley had their usual drive about the city during the morning. At lunch they entertained Comptroller of the Currency Dawes, who stopped over on his way from Chicago to Washington. There was the usual number of callers and the usual business from Washington. Aside from this the day was uneventful. Extreme heat continues.

TO AMEND ORDINANCE.

A new ordinance providing for the licensing of pool tables, billiard tables, pigeon tables, Manhattan tables and all tables similar thereto, has been prepared by City Attorney Shambaugh and will probably be passed by the council. The only change in the old ordinance is to make it possible to license Manhattan tables without controversy.

BITS OF INFORMATION.

The Saxon government made more than $8,000,000 from its railways in 1898.

Only seven occupations were open to women in the United States in 1839; now there are about 400.

Philadelphia has just shipped a cargo containing $1,000,000 worth of agricultural implements to Russia.

Although Spain is an agricultural country, it had to import last year more than $15,000,000 worth of grain.

Salmon skins are used by the Eskimo of Alaska for making water-proof skirts and boots. They also make jackets out of codfish skins.

Bears are so destructive to cattle in some parts of Colorado that farmers are offering rewards of $50 to $200 for particularly dangerous beasts.

Bald heads and clean-shaven faces are healthy, according to a Philadelphia physician. He says that dangerous bacilli breed in hair and whiskers.

Although the Cossacks maintain nearly 60,000 fighting men and can muster 128,000 in an emergency, there are but 440 of them engaged in business.

The total population of the Philippine Islands is estimated at from 8,000,000 to 10,000,000. It is made up of no less than three distinct races, and those again are divided into eighty-four tribes, differing from each other in language, customs and laws and sundered by ancestral jealousies and feuds. Of the eighty-four tribes mentioned, seven may be fairly rated as civilized.

Boers Bigger than the English.

The Boers are taller, stronger and of a more powerful physique than the English. It is quite a common occurrence to meet a Boer six feet six inches in height. The Boer who has taken to town life and acquired town vices may degenerate like other people, but this is not of frequent occurrence. Even those who do live in towns often preserve their primitive and simple methods of existence.

Except Mules'.

The average ear is from 2 to 2½ inches in length.

FREE STATE BOERS.

More Liberal in Their Religious Views than Their Transvaal Brethren.

The Boers of the Free State are essentially a pastoral people. Aside from the marvelously rich diamond deposits at Jagersfontein (Hunter's Fountain), the Free State has nothing to distract its ambition from the growing of cereals and the raising of sheep and cattle. Farms thousands of acres in extent abound, the one on which Cronje made his last stand being 30,000 acres in extent.

In character, too, the Free State burghers differ from the Transvaal Boers. The former, being nearer to the civilization of the Cape Colony, have profited more or less thereby, and are moderately progressive. In religion, too, the Free Stater is more tolerant. The Transvaal Boer knows no church save the Dutch Reformed. The Free Staters, while mainly Lutherans, are to some extent Wesleyans and even Episcopalians—in fact, there are Roman Catholics among them. But whatever their respective creed, they are as devout as their Transvaal brethren.

Story of Oom Paul's Postmaster.

When Isaac Van Alphen, the postmaster general of the Transvaal and a warm friend of "Oom Paul," was in this country in attendance at the postal congress, he had an amusing experience which he still likes to refer to. Walking arm in arm with a friend near the Pennsylvania station in Baltimore one day, the distinguished foreigner was approached by a policeman, who announced that Van Alphen had been ordered to appear before the coroner to act as a juror.

"By what authority do you ask this?"

"By the authority of the State of Maryland."

"I acknowledge no such authority," said Van Alphen, the humor of the situation breaking upon him.

"You acknowledge no such authority?" repeated the policeman with amazement. "What do you mean?"

"Well," announced Mr. Van Alphen nonchalantly, "I am a resident of Pretoria in the South African republic, and I don't acknowledge the authority of the State of Maryland in this instance."

"Pretoria, South African Republic!" echoed the policeman, puzzled for a moment, but finally he begged Mr. Van Alphen's pardon, and walked away, saying, audibly, "Well, you're about the wisest 'coon I ever saw."

It is probably the honeymoon that affects the tied.

A WORD FROM MR. FRANK HEATHMAN.

Having investigated the affairs of the People's Mutual Burial association, I feel it my duty as a member and in justice to the said association, to say a word in its behalf. It is not quite two months old and in the face of all the misleading and condemning statements which are being circulated by certain persons who are not in sympathy with the association, I think its success has been phenomenal. I have this day received fifty dollars from the treasurer, payment in full, in accordance with the constitution and by-laws, of the five hundred members, who have paid in on the death of my wife. I wish to thank the members and the officers of the association for the benefit, which was a great help to me. I furthermore wish to thank Mr. Bloom for his kind and prompt service. I hope the members of the association will help extend the membership to every home in Allen county.

(Signed.) FRANK HEATHMAN.

The White Man's Burden

can be named in the single word—*dyspepsia*. It is the one disease, which more than any other, affects the American people. It is common to all classes and all conditions. It makes life miserable. It mars family happiness. It interferes with business and pleasure alike, and it discounts a man's usefulness just as much as it discounts his happiness.

There's a remedy for dyspepsia. Dr. Pierce's Golden Medical Discovery has lifted this burden from the bodies of hundreds of thousands. It cures ninety-eight out of every hundred who give it a fair and faithful trial.

"I used ten bottles of Dr. Pierce's Golden Medical Discovery and several vials of his 'Pleasant Pellets' a year ago this spring, and have had no trouble with indigestion since," writes Mr. W. T. Thompson, of Town Squad, Broadwater Co., Montana. "Words fail to tell how thankful I am for the relief, as I had suffered so much and so seemed that the doctors could do me no good. I got down in weight to 125 pounds, and was not able to work at all. Now I weigh nearly 165 and can do a day's work on the farm. I have recommended your medicine to several, and shall always have a good word to say for Dr. Pierce and his medicines."

Free. Dr. Pierce's Medical Adviser is sent free on receipt of stamps to pay expense of mailing *only*. It contains 1008 pages and over 700 illustrations. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for cloth binding to Dr. R. V. Pierce, Buffalo, N. Y.

Life Insurance shall find favor in your eyes and shine with brighter light than ever—the protection of labor, the guardian of the destitute, the richer of the poor, the anchor of the anxious and the luxury of the rich.

MR. HARRIS' ADDRESS.

"Parties and Issues" was the theme of Attorney E. V. Harris, who addressed the Soldiers, Sons and Citizens' Republican club Monday evening, and the speaker discussed the political policies of the past and of the present. In contrasting the democratic and republican platforms of the present year Mr. Harris said the republican platform was couched in clear and unmistakable language, while the democratic declaration of principles was denunciatory of evils which he considered imaginary. He contended that no plank in the republican platform pledged the party to a policy of imperialism. He cited the resumption of specie payments and the enactment of the republican tariff laws, which he contended were instances of republican principles sustained by conditions which followed them. Mr. Harris thought the main issue in the present campaign was the money question, and in closing he paid a lofty tribute to President McKinley and his administration. The attendance at the meeting was lessened somewhat by the excessive heat of the evening.

PREVENTED A TRAGEDY.

Timely information given Mrs. George Long, of New Straitsville, Ohio, saved two lives. A frightful cough had long kept her awake every night. She had tried many remedies and doctors but steadily grew worse until urged to try Dr. King's New Discovery. One bottle wholly cured her; and she writes, this marvelous medicine also cured Mr. Long of a severe attack of Pneumonia. Such cures are positive proof of its power to cure all throat, chest and lung troubles. Only 50c and $1.00. Guaranteed. Trial bottles free at Dreier Bros.' drug store.

Three Unique Places.

Doubtless the most unique spot in Europe is the little village of Altenberg, where on its border four countries meet. It is ruled by no monarch, has no soldiers, no police and no taxes. Its inhabitants speak a curious jargon of French and German combined, and spend their days in farming the land or working in the valuable calamine mine of which it boasts.

The little town of Stanley, in the Falkland Islands, possesses the most unique school service ever known. Two traveling schoolmasters are provided by the government, who visit the different families where there are children and give instruction. The length of their visit depends on the astuteness of the children, and they may spend days or weeks, as the case may be, at one house alone.

A town boasting of a railway station which cost $20,000 to erect and a duly appointed station master, and yet having no train service, is unique beyond dispute. Dundee, in New Jersey, is in this predicament, the inhabitants having annually no trains, although their fine station is available for any amount of traffic, and the reason given for this strangefact is that so long as the trains run through the inhabitants ought to be satisfied.

One Pleasure of Leisure.

When we are at leisure we generally contrive to infuriate some one who is working hard to enjoy the same privilege.

The action of the powers in China would not be injured by some stiffening of the joint.

At least it may be said in favor of the anarchists that their poetry isn't any worse than Alfred Austin's.

We want to take time by the forelock and announce for the benefit of our republican contemporaries that when Vermont goes republican in September Alabama will already have gone democratic a month and more.

With Joe Choate and Chauncey Depew in conjunction on the other side the cyclone that swept the United Kingdom ought to have been predicted far enough in advance to enable every body to get inside his storm cellar.

Ambassador White says the kaiser's blood-of-blood-no-quarter speech has been widely misconstrued. It is a shuddering thought that this observation may also include the troops to whom the speech was addressed.

The allies having marched upon and engaged General Ma's army ought as soon as possible get in front of General Fa's contingent and the whole boxer household may then be brought to a state where it can be reasoned with and if necessary spanked.

Senator Elkins' gracious invitation to President McKinley to come over into the West Virginia hills to cool off and incidentally make a few campaign speeches may be intended as a mark of courtesy and respect, but in view of the president's prompt acceptance it sounds like the Macedonian cry, "Come over and help us."

This English view of Mr. Bryan, taken from the London Speaker, has both truth and force: "Constantly before the American public for years, scanned with close scrutiny, he has given the impression of sincerity and humanity. The American people, cursed with the sinister spectacle of whole states under the rule of corrupt cynical 'bosses,' of Croker, Platt, Quay, Addicks, of men rich with the spoils of 'protected' syndicates and trusts, have seen in Mr. Bryan a clean handed man entirely removed from all this dirty money-making and wire-pulling. His life is simple, his tastes are ideal, his character is above reproach, his eloquence is powerful, his industry untiring."

IMPERIAL CORNER IN WHEAT.

[New York World.]

A unique chapter in diplomacy is disclosed for the first time by J. D. Welpley in McClure's Magazine for August. According to his statement a serious proposition was made by the Russian government to our government at Washington on November 4, 1896, to combine as governments to corner the entire surplus wheat of the world. On that day Mr. Kotzebue, the Russian minister at Washington, is said to have submitted it to Richard Olney, our then secretary of state. The object of the proposed combine of the two governments was to raise the price of wheat 100 per cent. for the benefit of Russian and American farmers at the expense of all the rest of bread-eating mankind. Our government, of course, declined the proposition. It was not, in fact, within its power to assent to it.

Together the United States and Russia produce about 80 per cent. of the entire surplus wheat of the world. Assuming that the two governments should, as Russia proposed, enter every market as buyers of wheat at the stated price of $1 per bushel, it is entirely probable that they could maintain for awhile the price of wheat at that level.

The world's wheat crop in 1898 was 2,879,000,000 bushels. The farmers who raised it sold it for about 50 cents per bushel. The Russian scheme, carried out, would add nearly $1,500,000,000 to the selling value of the entire crop. The farmers of the United States, who produce nearly 700,000,000 bushels a year, would thus gain about $350,000,000. The Russian farmers, who raise about 400,000,000 bushels a year, would add $200,000,000 to their income. Meantime the English people, who buy 125,000,000 bushels of wheat a year, would find their food bill increased by over $60,000,000 a year. British farmers, per contra, would get $30,000,000 a year more for their small crop of wheat.

It is plain that a Russo-American wheat trust would, in the present conditions, press most hardly upon England. But the inevitable final outcome of such a combination, successful though it may be for a year or two, would be to stimulate wheat production in every country in the world where wheat can be grown. It is a testimony to the great strength of the agrarian interest that the Russian government gave no consideration to the consumers of wheat in its scheme to double the price.

CAVALRY TROOP SURE.

The meeting of young men at the city hall Monday evening for the purpose of organizing an independent cavalry troop was well attended, and the preliminaries were discussed at length. The project was enthusiastically received, and it is said there is no doubt of the formation of the troop. Committees were named to arrange for definite action at a meeting to be held Thursday evening at the Elektron building. The young men believe there will be no difficulty in enlisting a full troop in this city.

COMPLAIN OF FILTH.

Much complaint has been made by residents on Lewis street and Douglas avenue, near McClellan street, of the unsanitary condition of the alley between the two thoroughfares. Complaint was made this morning to the board of health and the alley will be inspected some time soon. Persons who are violating the ordinance requiring that the alleys be kept clean may be prosecuted for the offense.

DEATH OR TRANCE

CORONER OF INDIANAPOLIS IS PUZZLED.

STRANGE CASE OF MISS ELLIS

PHYSICIANS SAY SHE IS DEAD AND FRIENDS DENY IT.

HAPPENINGS IN HOOSIERDOM

GENERAL NEWS OF THE STATE OF INDIANA.

Indianapolis, Aug. 7.—Coroner Nash will be called upon to decide whether or not Miss Jennie Ellis, of Portland, Ore., is dead. She has been visiting Mrs. Mary A. Willets, of 828 Blake street, this city, and Sunday night, when she retired, seemed in perfect health. When called yesterday morning she did not answer, and physicians who were called pronounced her dead. Both Mrs. Willets and Miss Ellis are members of the Christian Israelite church, the members of which believe they can commune with God by going into trances, and Mrs. Willets believes Miss Ellis is in a trance. Coroner Nash does not know what to do, although he may hold an autopsy.

FIVE BULLETS IN HIS BRAIN.

Muncie, Ind., Aug. 7.—The discovery was made last night that Henry Overmire, of Yorktown, the retired farmer who attempted suicide two weeks ago by shooting himself in the head, fired five bullets into his brain instead of three. Two extra empty shells were found today and the bullets were located in Overmire's head. Two were extracted last night and the three fired into the forehead and each ear remain. The aged man stood the operation well and will probably recover.

BATTLED WITH TRAMPS.

Tipton, Ind., Aug. 7.—There was a battle, Sunday, between the police and the tramps lounging about the junction, in which the "hobos" were worsted. This city has been overrun by these "wont-work" tourists, and they became a menace to the public by their insulting demeanor toward women and children, and their petty thievery. They attempted to rob several people and the chief of police gave orders that they should be clubbed out of town. Twenty and more were given marching orders, and several of the more obstreperous were given cause to remember their visit here.

GOES TO MICHIGAN.

Laporte, Ind., Aug. 7.—Rev. Julius Reichert, recently pastor of the German Evangelical church, at Bremen, has accepted a call to the pastorate of a church at Adrian, Mich. The Bremen church has extended a call to Rev. E. Brenion, of Howard City, Mich., who will assume charge in a few weeks. The corner-stone of the new Evangelical church, at Bremen, was laid Sunday, under the direction of Rev. S. H. Bumgartner, of Elkhart. When completed the cost will be about $10,000 and it will be the handsomest edifice in Bremen.

STRANGLED TO DEATH.

Rushville, Ind., Aug. 7.—Fred Bundy Churchill, seven months old, son of Earl R. Churchill, merchant, hung himself yesterday while playing in his tiny iron bed. He was caught between the side rail of the bed and a sliding iron rod, used to prevent the little one from falling out of bed. When found the baby's chin was resting on the side rail, with the back of its head against the side-guard and its feet nearly touching the floor. The body had apparently been dead for twenty minutes before discovery by Mrs. Churchill.

PINE LAKE ASSEMBLY CLOSES.

Laporte, Ind., Aug. 7.—The services of Sunday witnessed the formal close of the Pine Lake Assembly, which opened last week. The attendance during the sessions was better than that of previous years, and the result has been a large increase in the membership of the association. The grounds were sold under a mortgage about a year ago, but as the result of the assembly meeting, a sufficient number of lots were sold again to place the grounds and buildings in possession of the association.

DECATUR MAN DROPS DEAD.

Decatur, Ind., Aug. 7.—Edward Coffee dropped dead at his home in this city of heart disease. He was 35 years old. Several years ago he took an active part in politics. He was a democrat and an exceptionally brilliant speaker. Just as the fame of the young orator was beginning to be heralded away from his home he lost his voice completely, through asthmatic trouble, and he was never able thereafter to speak above a whisper. He continued, however, to carry on an extensive law practice.

GAAR MAY RECOVER.

Richmond, Ind., Aug. 7.—John M. Gaar, resident of the Second National bank and also president of the great threshing machine firm of Gaar, Scott & Co., is seriously sick at his home in this city. However, his physician says there is no immediate danger and holds out hope of recovery. Mr. Gaar, who is 76 years of age, is suffering from a complication of troubles.

STORY IS NOT YET TOLD.

Terre Haute, Ind., Aug. 7.—There is a belief that Otto Cottom, the seventeen-year-old youth who shot himself because of his alleged forced marriage to a woman he knew as Lou Chandler, has not told all that he knows. Sufficient has leaked out to indicate that possibly he was the scape-goat of another young man, whose identity is known to him. The whereabouts of the woman is still unknown. Cottom offers no further explanation concerning the letter which he claimed to have received, which he first said was mailed at National City, near Peoria, Ill., and afterward explained that National City, Va., was meant. There is no such postoffice in either state, but there is a National City in California. The evening that the story of attempted suicide appeared in the newspapers a woman of about twenty-seven, the reputed age of Lou Chandler, overheard a member of the family where she was employed as a servant, reading an account of the affair. It was noticed that she was startled. Later in the evening she quit the employment of the family, and the next day a young man called for her clothing. This young man answers the description of the man whom Cottom says officiated at the marriage ceremony.

LUTHERAN SYNOD'S MEETING.

Laporte, Ind., Aug. 7.—The central district of the Missouri Lutheran synod, which embraces the states of Indiana, Ohio and Kentucky, will convene in St. John's church in this city, Wednesday morning, August 8, and continue in session one week. The sessions will be attended by 171 clergymen, 137 lay delegates and seventy-one teachers. The synod consists of 181 congregations with 81,558 members and 182 parochial schools with 18,220 scholars. There are but four cities in the district that are able to entertain the synod, viz: Laporte, Indianapolis, Fort Wayne and Cleveland. Of the four all but Laporte have more than one congregation. For some time the ministers have been considering the advisability of dividing the synod owing to its size, and that question will probably come up for consideration at this gathering.

The opening sermon will be delivered by Professor Pieper, of St. Louis. The clergymen, lay delegates and school teachers began arriving today.

THE LYDA POINSONING.

Fowler, Ind., Aug. 7.—Mrs. William Lyda and Starr Cox, defendants in the Lyda poisoning case, are seeking by habeas corpus proceedings to be released on bail, and the case is being heard by Judge Babb. The evidence for the state is stronger than first supposed, and there is much excitement over the matter, with a belief that the application will be denied. It will be recalled that William Lyda died on the night of July 19, with symptoms of strychnine poisoning, and despite Mrs. Lyda's objections a post mortem was held by the coroner, and the presence of strychnine was discovered in the stomach. The arrest of the principals named followed. Starr was a farm laborer in the employ of Mr. Lyda, making his home with his employer. The victim was a well-to-do farmer, who owned eighty acres of land on which he had built a comfortable home. He married Mrs. Lyda twenty-two years ago. There are no children.

ASSAULTED HIS WIFE.

New Albany, Ind., Aug. 7.—Chas. Kirchgessner, thought to be insane, attempted to kill his wife yesterday. He dragged her from his house, and attempted to stab her with a butcher knife, but was prevented by her brother, Peter Deller. Mrs. Kirchgessner's refusal to sell her property and return to Germany is said to be the cause of the assault.

PENSION OFFICE IS CLOSED

NO SPECIAL EXAMINER FOR FORT WAYNE.

Harry F. Schontz is Ordered to Washington—The Business Has Been Diminishing.

Fort Wayne no longer has a special examiner, and the quarters of that official on the third floor of the government building were closed today. No one knows to a certainty whether the abolition of the Fort Wayne office is permanent or not, but it is probable that it will at least be closed until there is more business for the examiner in this territory.

Harry F. Schontz, who has been stationed in this city as special examiner since March, 1899, has been ordered to return to Washington, and to bring with him the records of his office. Mr. Schontz packed up today and this evening will leave over the Pennsylvania for the east. The Fort Wayne district has been composed of nine counties in this section of the state, and as there has been a falling off in the pension matters of the district, the department has decided to abolish the Fort Wayne office and to divide the work up among the adjacent districts. Mr. Shontz will return to his former position in the pension department at Washington. During his stay in the city he has made many acquaintances and formed a wide circle of friends who regret to see him leave the city.

STORY OF A SLAVE.

To be bound hand and foot for years by the chains of disease is the worst form of slavery. George D. Williams, of Manchester, Mich., says: "My wife has been so helpless for five years that she could not turn over in bed alone. After using two bottles of Electric Bitters she is wonderfully improved and able to do her own work." This supreme remedy for female diseases quickly cures nervousness, sleeplessness, melancholy, headache, backache, fainting and dizzy pells. It is a godsend to weak, sickly, run-down people. Cure guaranteed. Only 50c. Sold by Dreier Bros., druggists.

DYSPEPSIA

"My wife suffered for many years from Nervous Dyspepsia, Sick Headache, Sleeplessness and Nervous Debility," writes John Kellner, Philadelphia. "We tried many physicians and numerous remedies, but with no results, until I heard of Johnson's Dyspepsia Cure. We bought six boxes, and the results far surpassed our expectations. She now eats and sleeps well, is gaining in flesh, and her color, which had got to be yellow and sickly, is now as fresh as when we were first married, and I tell her that Johnson's Dyspepsia Cure has made her ten years younger."

Sleeplessness almost invariably accompanies constipation and its manifold attendant evils—nervous disorders, indigestion, headache, loss of appetite, etc. To attempt to induce sleep by opiates is a serious mistake, for the brain is only benumbed and the body suffers. Celery King removes the cause of wakefulness by its soothing effect on the nerves and on the stomach and bowels.

SQUAD OF AMERICANS ATTACK FILIPINO STRONGHOLD.

A WOUNDED FORT WAYNE BOY

TELLS HOW A BULLET WENT THROUGH HIS BREAST.

PRIVATE L. W. JONES' LETTER

IS RECOVERING AND WILL SOON RESUME DUTY.

Some time ago The Sentinel's telegraphic dispatches announced that Lewis N. Jones, a Fort Wayne soldier serving with Company C, Thirty-fifth United States volunteers, in the Philippines, had been wounded in action. The young man is a brother of Mrs. Charles Hudson, of 153 Poplar street. Readers of The Sentinel will be pleased to know that the young soldier is recovering, and will be interested in his description of the affair in which he was shot. The letter follows:

"Balinag, P. I., June 25.—This hospital life is something fierce. One doesn't have any chance to exercise, and it is very hard for me to sit around here and see others enjoying themselves. I asked to be marked 'quarters' on the sick book this morning, but the surgeon looked at me as if he thought me better off where I am. I feel pretty good now, but it would not do for me to say I am well. I only feel a little sore on the inside, and I could run about and have a good time if they would let me.

HOW IT HAPPENED.

"Well, I will tell you a little about the time I had. Our company started May 30 for San Rafael, where we stayed all night. I slept on a windows hutter, with my haversack as a pillow. We had four days' rations on those 'hikes,' and as I never carry anything I don't need, I had no blanket. It rained that night, and when we started on the 31st we found it very slippery. Before we had gone two hours they had to send back some of the men who could not stand it, so our company was cut down to about forty-five men. We kept going up and down hill all the time, farther and farther into the mountains, till at noon we halted at a river and proceeded to cook dinner. I had to cook for two—myself and a brother Red Man, John Dunnigan, who had all he could do to get there. But he had the grit to stay, and many men stronger than he went back. I ate dinner and then took a bath, after which I felt much better.

"Our first sergeant and another sergeant had given out and the captain and lieutenant were carrying their guns and belts, and we all felt very tired, but after an hour's rest we started on, using a native whom we found for a guide. About 2 o'clock I saw something in the brush and told the captain. We halted and I went in to see what it was. Found a boy trying to hide. We took him along, and soon came upon a little open space with a few shacks, searched the place and found one man with a gun and several others who were not armed. We made the fellow talk, and he said he knew where there was a general and some insurgent troops.

"We posted a guard and camped here all night. In the morning, June 1, we released all the prisoners except the man who had the gun, and we made him guide us that day. He didn't like to do it and cried a good deal, but that didn't help him any. We kept going higher all the time and it was still wet and hard walking, though we saw some beautiful country. Just before noon we stopped for dinner. They had not all finished eating, and I had just got into the trail and sat down when one man jumped up and said, 'Here they are.'

SOME LIVELY WORK.

"Well, you ought to have seen us get our guns. The boys forgot it was dinner time. There were three insurgents in the trail and we did not fire on them, but threw out a skirmish line and went up the hill 300 or 400 yards. Here we reached a ridge, and as we did so we were fired on. Finally we located the insurgents on a large hill just in front, but separated from us by a deep gully. We lay down with this ridge for a breastworks and returned the fire when we saw anything to shoot at.

"After we had kept up the firing for two hours myself, one lieutenant and two other men went scouting to see what sort of a place we were in. We found that the hill held by the enemy had but one trail up the side and it was so steep that a man would need his hands to help him up. They were well intrenched on top and sides, and there were no brush or trees on the hill, so you see it was impossible to get up without being in full view at all times.

"We went back to the captain and first lieutenant and they talked it over while we boys continued to feed them bullets and listen to theirs go humming by. We were firing 1,500 yards, and could not see what work we were doing. There were eight or ten of us close to the captain, who finally said: 'Some of you men go and tell the sergeant to get his squad out, and we will go; we can't do anything here.' The boys all sat still. I asked the captain where they were and he told me. I started to get them. I had about twenty-five yards to go in plain view of the hill, then into the brush and behind the ridge where the others were.

"I reached the edge of the ridge and asked for the sergeant when I was hit about two inches below the collar bone with a Mauser ball. The ball penetrated the right lung and came out below the shoulder blade. Well, I was not long in getting down behind the ridge. The sergeant saw me and came over; then I told him and we started for the river. When I got there I found the boys making a litter. They bound me up with first-aid bandages and I got into the litter. It was made of two poles and two ponchos or rubber blankets.

A PAINFUL RIDE.

"My wound was beginning to pain a good deal now, and frequently the litter would close up on me. Once it broke and I hit the ground. Then it began to rain and they put a poncho over me. When they would go up hill I would get a lot of water in my face. Then it got dark and tough on the mountain trail—so dark one could not see four feet, and part of the time I was dragging on the ground. Then someone would slip and hit me with his foot, or fall down on me, and the least pressure on that side would hurt fearfully. How glad I was when they finally stopped in a little opening for the night. They put me under a tree on that wet stuff and I got a little sleep. Two of the boys stayed up with me and the others formed a skirmish line and lay down on the wet ground to sleep with one post or guard. Each man would stand twenty minutes, then awaken the next on the line, and so on through the night.

"The next morning we found we were within an hour's march of a little town. We went there and they put me on a bed in an old cavalry barracks while the boys got breakfast. As they had no supper the night before, they ate about all they could get. I had ham and eggs and hard bread for breakfast, and felt better. Then they fixed up a sled and got a cariboo to haul me in to San Miguel, a distance of ten miles. The cariboo was a wild one, as are all of the most used to soldiers, and when he would go at all it was on the jump—just hitting the high places in the road. I felt as if I were about dead, and I am afraid I talked rather roughly to that native, but we got him stopped, and I refused to ride him further.

"So they got four natives and I told the boys how I wanted a litter fixed—with sticks in the ends to keep it from closing up on me. They fixed it that way. They got me a parasol and we started on; soon picked up four more men and made them help carry me. We got to Miguel about 6 o'clock on the evening of June 2, about twenty-eight hours after I was shot before I received medical aid.

RAPID RECOVERY.

"My recovery has been rapid; to see the mark you would not think a ball had gone through me. While I suffered fearfully on that trip don't think I blame the boys, for they did all for me that was possible. They were nearly worn out themselves with what we had gone through and that night did not know whether we were going further into the mountains or getting out of them, and were expecting an attack at any moment. I assure you it was about as trying a night as I ever saw.

"A short time after our men went out there with four companies and could not take the place; it was practically invulnerable. Then General Grant and General Funston went up with two pieces of artillery and seven companies of the Twenty-second infantry, three of the Thirty-fifty infantry, several companies of the Thirty-fourth and Forty-second, and a company of Maccabebee scouts and drove the insurgents off. General Grant said after he returned that fifty Americans on that hill could hold it against the whole island. So you can have some idea of what we were up against with only forty-five men. I guess it was about the real thing.

"Well, all that I hate about it is that I got it in the first battle, but that is not saying they can do it again. I am all right now, I assure you. The doctor said I could get out and walk around, and I will soon be on duty again, and you bet I will be glad of that.

"Your loving brother,

"Lue."

REPUBLICANS HAVE CHARGE

PARTY DAY CELEBRATED AT ISLAND PARK.

W. S. Taylor, Former Governor of Kentucky, and James E. Watson the Attractions.

Rome City, Ind., Aug. 7.—This is republican day at Island Park assembly and republicans from Ohio, Michigan and northern Indiana are here in force. Excursion trains from many points brought in large crowds and the attendance is large. Among the distinguished party men are Former Governor W. S. Taylor, of Kentucky; Col. W. T. Durbin, republican candidate for governor of Indiana; Congressman James E. Watson, of the Sixth Indiana district; Hon. R. B. Hanna, republican candidate for congress in the Twelfth district, and many others are here. Governor Taylor and Congressman Watson were heard this afternoon from the assembly platform.

Dr. Gear Hobbs has given the Island Park people a rich treat in his three days' stay at the assembly. He preached an able sermon from the text, "People that do know their God shall be strong and do exploits." His exemplification of the true meaning of strength has revealed from Daniel's standpoint indicated purity of heart, resoluteness of character and decision in loyalty to God. Also that an acquaintance means more than seeing with the natural eye and living in the age of the person whom we profess to know. We may know by hearing of and believing in the individuals whom we implicitly trust. His discourse was a strong one.

His great lecture describing India and its famine stricken people was most thrilling and impressive.

One of the great evenings of the assembly will be Wednesday, when we are promised the presentation of the Passion Play, by Professor Kline and his cinematograph. The first passion play to be given at Oberammergau since the invention of moving pictures is yet on at that place and this set of pictures is the first which have come to America. They were taken out of the custom house at New York on the 22nd of July by Mr. Kline and have been used but twice, at Des Moines and Colfax, Iowa, where they aroused unbounded enthusiasm. Unlike the old passion film and scenery these are of the passion itself, as presented in Oberammergau and being made in the open air peculiarly natural and very beautiful. They can be put on but one evening and no one can afford to miss them.

Thursday is Temperance day at the assembly, and already Mrs. Mary E. Balch, Mrs. M. A. Tompkins and Mrs. Josephine Woods, W. C. T. U. workers, have done excellent advance work. The program for their day will consist of brief addresses by Mesdames R. C. Travis, A. P. Daub, Laura Phoenix, Josephine Wood and other union workers.

Quincy D. Morrey will deliver the principal addresses, afternoon and evening. There will be, in connection with this, a diamond medal contest.

The noted world's evangelist, Rev. Aaron Worth, will deliver one of his telling prohibition speeches. Mrs. Luella F. McWhirter and Mrs. Amanda Whitson, of Indianapolis, will be present. A number of temperance quartets have been promised and Evangelist Masters, of Muncie, will bring in a large excursion from his own town and intermediate points.

Mr. J. W. Hunter, superintendent of the Grand Rapids and Indiana railroad, was a visitor at the assembly yesterday and is highly pleased with the increase of attendance that the traffic on the roads indicated in this, the twenty-second annual session of the assembly over the previous years. Island Park is his pride and one thing that secures his best endeavor, and he promises many great improvements to be made on the assembly ground in the coming year.

MR. GEAKE IS HOME.

William Geake arrived in the city Monday evening on his return from a two months' tour of Europe. H. C. Hanna, who accompanied him, remained in New York to attend to some legal matters, and will reach the city Friday. Mr. Geake and Mr. Hanna traveled extensively in England, Ireland, Scotland and France, and the trip was a most enjoyable one, though the Paris exposition is a disappointment to Mr. Geake, who is of the opinion it can not be compared with the recent world's fair in Chicago. Great Britain is apparently enjoying prosperity, even though business is not carried on with the rush characteristic of America, and everybody appears to take life easier than on this side of the water. American trade is being catered to very largely in England. While in England the Fort Wayne gentlemen were fortunate enough to get a glimpse of Queen Victoria, the prince and princess of Wales, and many other prominent personages, and visited numberless spots of historic interest.

BAKING POWDER

~Absolutely Pure~

For the third of a century the standard for strength and purity. It makes the hot bread, hot biscuit, cake and other pastry light, sweet and excellent in every quality.

No other baking powder is "just as good as Royal," either in strength, purity or wholesomeness.

Many low-priced imitation baking powders are upon the market. These are made with alum, and care should be taken to avoid them, as alum is a poison, never to be taken in the food.

ENGINEERS WILL GO.

Thursday morning an engineering corps will start over the line of the proposed Indiana and Ohio Traction company, from Marion to Hicksville, and their work will form a basis for the construction estimates. The right-of-way has all been secured, and it is hoped to soon begin the actual construction of the line.

Andrew Sundheima, a butcher of Wabash, Ind., is an inveterate tobacco chewer, using plug exclusively and carrying it in a hip pocket. A few days ago he absent-mindedly thrust a $10 bill down alongside the tobacco. The weather was hot, the bill and the tobacco stuck together and not until the plug had nearly disappeared did Sundheima learn that for a couple of days he had been chewing a $10 bill along with his weed.

NIAGARA FALLS, TORONTO AND THOUSAND ISLANDS.

On Tuesday, August 14th, the Nickel Plate road will run its 18th annual excursion to Niagara Falls. Usual stop-off at Chautauqua Lake without extra charge. In connection with this excursion tickets to Toronto will be sold for $1.00 extra, Thousand Islands $6.50 extra. Tickets good returning within 12 days on any one of our Peerless Trio of Daily Express trains where scheduled to stop. Secure sleeping car reservations early. They tell in New York of a wealthy citizen, name not given, who for 12 years past has been importuning presidents of the United States to appointing him to office. He assures each occupant of the white house that he will under no circumstances accept. All he wants is "the privilege of refusing," as he wrote to President Harrison, but so far no chief magistrate has cared to take him at his word.

BATTERY BOYS ARE PAID.

At the regular meeting of Battery B on Monday evening Captain Rauke disbursed among the members the pay for attending the state encampment at Indianapolis recently. Each man received $1 per day for his time, and the sum of $302 was distributed.

WORK IS NEARLY DONE.

Special Agent P. L. Zorbaugh, who has been compiling industrial statistics of the city under the authority of the census department, stated this morning that the work in Fort Wayne was very nearly completed, and a few days would finish the work. The canvass at Decatur, Bluffton and Columbia City is also completed. Mr. Zorbaugh says the information has been given freely, and he believes the compilation is accurate and complete.

Everything points to one of the largest apple crops this season in the history of Nova Scotia.

Jack Harper was revenged yesterday for the treatment accorded him Sunday by Mr. Armour's alleged coming champions. He was supported behind the bat in yesterday's contest by Bergen, in whom Harper has more confidence than any backstop who ever handled his curves. The result was phenomenal work by the slender pitcher. He had speed, curves and worked the Dayton batters with an occasional slow one, until at the end of the game he had "fanned" seven batters. The Fort Waynes did not field in gilt-edge style and several times it appeared as if a Dayton runner might score, but Harper's effective twirling was too much for them and not until the ninth were they able to get a runner over the plate. In the last inning "Jiggs" Donahue smashed the ball over the left field fence and trotted around the bases. Fort Wayne scored first in the fifth inning, when Belden led off with a single. He attempted to go to second on a sacrifice hit. Meyers gathered in the ball and threw toward second, but Belden was in the way and the ball hit the runner. Harper's single sent Ira over the rubber. In the ninth the winning run was scored by Krueger, who made a pretty single and was advanced to second by Letcher's sacrifice. "Doggie" Miller's two-bagger sent him over the rubber. Score:

NOTES OF THE GAME.

Brashear has failed to make a hit in seven games played on the trip. Belden has done the best batting, having made a hit in every game.

Manager Loftus, of the Chicago National league team, has released Shortstop Clingman and Catcher Nichols has been farmed out to Minneapolis.

President Mautner is with the team and will watch Reynolds pitch in the game at Richmond tomorrow. If he shows good form an effort may be made to sign him for Fort Wayne next season.

Rosebrough and Reiman have been released by the new Marion management. It is surprising to see "Rosy" go, as he was the only reliable twirler on Manager Finn's staff. He pitched much better ball than "Whitey" Guese.

Dayton had won ten consecutive victories when Fort Wayne took a fall out of them yesterday. "Doggie" Miller has already won as many games as the "fans" anticipated when the team started on the trip and if the Hoosiers win again today he will have exceeded anticipations.

The Fort Wayne team will play in Richmond tomorrow. Ream and Kleinow will form the Fort Wayne battery and Reynolds and Earle will be in the points for Richmond. Thursday Fort Wayne begins its final series of three games in Columbus and Sunday returns home to play with Toledo.

"Chick" Stahl's bat assisted in winning two games for Boston yesterday. One victory came in the eleventh inning and the other in the ninth. Stahl scoring one run in the first game and two in the second. He made two hits in each game, a homer being among his contributions in the first. He captured seven fly balls in the two games.

TO BUILD MUNICIPAL PLANT

WATER WORKS AND ELECTRIC LIGHT FOR MONROEVILLE.

Board So Decided at a Meeting Held Monday Evening—Will Cost About $8,000.

D. C. Purman, a member of the Monroeville board of town trustees, was in Fort Wayne today and The Sentinel learned from him that at a meeting of the town trustees held Monday evening it was voted to construct a municipal light and water plant. The project has been agitated in the little town for a long time and a petition favorable to the construction of such a plant, signed by two-thirds of the property owners, was filed with the board. Inquiry was made of cities where plants are now in existence, and Mr. Purman says that every advice was favorable to Monroeville owning a light and water plant. It is proposed to purchase a 120-horse power engine and operate both plants with the same power. An immense stand-pipe will be erected and Mr. Purman estimates the cost of the plants at $18,000. There was some opposition to the action of the board, and thirty days will be given for remonstrance, but so certain was the board of following out its decision of last night that Mr. Purman was sent to Fort Wayne to confer with H. C. Hanna, attorney for the board. Mr. Hanna has not returned home, but is expected in two or three days. His advice as to proceeding with the building will be followed.

Ex-Representative Harvey Horner, of Sumner county, Kan., is a snake tamer, and usually carries around with him, in his pocket, a live bull snake, with which he makes lots of fun. A pickpocket "touched" Horner at the circus at Wichita and happened to get his hand into the pocket where the snake was kept. The shock made him scream, and Horner held him until the police arrived.

THE MARKETS.

Chicago, Aug. 7.—Early trading in wheat today was characterized by a sharp advance in prices. Liverpool cables were a surprise to traders, showing an entirely unlooked-for advance of about 1¾d, due to the continued weather in England and consequent damage to the crop. This started heavy general buying and for a time the market was quite strong. The advance brought large quantities of long wheat on the market, chiefly from local holders, and the market gradually became easier with trade quieting down as the liquidation was accomplished. September opened at from 76½c to 76⅝c as compared with yesterday's closing of 75⅝@75½c. It sold down to 76@76⅛c, back to 76¼c and then to 76⅛c. Northwest receipts were 210 cars, against 304 last week and 199 a year ago. Chicago receipts were 330 cars, 63 of contract grade. Weather in the wheat country was favorable for harvesting operations.

Little interest was taken in trading after 11 o'clock. Bidding indicated that there was a good demand for wheat at 76 cents or under, and the market held close to that figure most of the time, though one dip occurred which sent the September price back to 75¾c. The market was helped near the close by reports of good export engagements and closed steady at 76¼c for September.

Corn was firm and higher. Cables were higher, and damage reports from the prevailing hot winds in Kansas and Iowa continued to come in. There was some sympathy with the wheat strength. Receipts were 310 cars. September opened at from 38⅛c to 38⅜c, against yesterday's close of 37⅝c. The market became quiet and steady around 38⅜c.

September sold at 38⅛c and up to 38⅝@38⅞c, with the close at 38½@38⅝c.

Oats were strong and higher in sympathy with other grain markets. Offerings were light and the country bought in moderate quantities. Receipts were heavy, 718 cars. September opened ⅛@⅛c higher at 21⅞c and sold at 22c.

Provisions shared in the general strength, though only to a moderate degree. The good cash demand was the principal factor. The hog market was higher, country buying orders were in evidence, but trade as a whole was light. September pork opened 12½@15c higher at $11.07½@12.00 and sold at $11.07½. September lard opened 2½c higher at $6.65 and sold at $6.85@6.87½. September ribs opened 7½c higher at $7.20@7.22½ and reacted to $7.17½@7.20.

THE CLOSE.

Prices at the close were as follows:

Wheat—Aug., 75½c; Sept., 76¼c; Oct., 77@77⅛c.

Corn—Aug., 38⅞c; Sept., 38½@38⅝c; Oct., 37⅝c.

Hogs—Receipts today, 15,000; tomorrow, 23,000; left over, 2,492. Market 5@10c higher; top, $5.50. Mixed and butchers, $5.15@5.50; good to choice heavy, $5.10@5.45; rough heavy, $4.90@5.05; light, $5.20@5.50; bulk of sales, $5.20@5.40.

THE DAY ON WALL STREET.

New York, Aug. 7.—There was little doing in stocks at the opening of the market and changes were unimportant. The majority were small losses, but there was a sufficient sprinkling of gains to give a mixed appearance. Prices turned abruptly downwards after the opening, the selling and declines being largest in Sugar, Baltimore and Ohio and Brooklyn Transit. The bears covered when these stocks got down a point and partial recoveries followed. Some heaviness prevailed in the Grangers and Pacifics, but losses were small. The Steel stocks were also easier and Republic Steel lost 1½. Near 11 o'clock a firmer tone developed, but the demand was so light that the list failed to get up to yesterday's closing figures.

The market drifted to a lower level in the second hour, but changes were narrow in the prominent stocks. Subsequent losses were made by Chicago Great Western preferred B, which yielded 2⅝; Iowa Central preferred, 2; Consolidated Gas, 1⅝, and Metropolitan Street Railway, 1½.

Slight changes either way were recorded for bonds.

TO GET GOVERNOR ROOSEVELT

U. V. L. COMMITTEE IS MAKING A BIG EFFORT.

Hope to Secure Other Prominent Notables for the Encampment—Some Acceptances.

The invitation committee for the national encampment of the Union Veteran Legion is making a strenuous effort to secure the attendance of Governor Theodore Roosevelt on Friday of the encampment. This is the day more especially devoted to the Spanish-American war veterans and it is hoped to have the famous rough rider to review the big parade on that day. The local republican organization is supplementing the invitation committee, and within a short time it is hoped to secure a favorable reply to the invitation.

Unless the plans miscarry President McKinley will be in attendance on Wednesday, and Col. W. J. Bryan on Thursday. These, in addition to many other distinguished Americans, ought to insure some great crowds of people in Fort Wayne in September. General Miles will undoubtedly be present unless the Chinese situation should demand his attention too closely, and General Joseph Wheeler is regarded as certain to be here.

Among those who have already given positive assurance of their intention to be in Fort Wayne during the encampment are Gen. W. C. P. Breckenridge, of Lexington, Ky.; Gen. John Coburn, of Indianapolis; Gen. W. H. Withington, of Jackson, Mich.; David E. Beam, deputy commander of the G. A. R., Indianapolis; Gen. George C. James, of Cincinnati; Rev. Couden, the famous blind chaplain of the house of representatives, and Corporal Tanner, of Washington. Responses have also been received from Governor John R. Tanner, of Illinois, and Lyman J. Gage, secretary of the treasury, as well as several others.

The executive committee held a meeting Monday evening and heard reports from the sub-committees. The finance committee is yet much short of reaching the required $6,000 but the members are still at work, and it is hoped to bring the subscriptions up considerably within the next few days.

It came out in the reports of the recent Methodist conference that only two of the fifteen official journals of the church, published in different sections of the country under the common name of the Christian Advocate, had been conducted at a profit. The net loss on the others—$108,000 in four years—had been borne out of the profits of the publishing business known as the Book Concern.

The requirements of health can be counted on the fingers of one hand. They are: Good air, good food, suitable clothing, cleanliness and exercise and rest.

AN INTERURBAN FRANCHISE

GRANTED L. B. M'ILHENNY OVER PIQUA ROAD.

Line Will be Constructed to Connect Fort Wayne and Decatur—A Special Election.

The county commissioners have granted L. B. McIlhenny a franchise to construct an electric railway line from the southern limits of the city of Fort Wayne, along the Decatur or Piqua road, to the northern boundary line of Adams county. The grant is for thirty-five years and the company is expected to commence work before September 1, 1901; and have cars in operation on or before November 1, 1902. Cars are not to be run at a speed faster than twenty miles an hour and stops must be made at every public crossing or street. The company will also maintain stopping places between crossing at not farther than one mile apart nor nearer together than a quarter of a mile. A drainage system must be maintained by the company and the weeds along the highway must be cut by the employes of the company. County bridges cannot be used for the railway, but Mr. McIlhenny is granted permission to construct bridges alongside the county bridges. Other interurban lines which begin outside Allen county can be granted permission to use one-eighth mile of the tracks of the company, provided the new company pays one-half the price of construction of such portion of tracks as it may use. All repairs to the highway must be made by McIlhenny, or, if the commissioners order the repairs, at McIlhenny's expense. After the road has been completed three years the company agrees to pay into the county treasury $30 per mile for each mile of highway operated upon each January, said money to be used in keeping the highway in repair. A bond of $25,000 must be given to the county before the road is begun. The commissioners agree that in case of injunction proceedings the company may be given an extension of time equal to the time delayed by court proceedings.

A SPECIAL ELECTION.

The county commissioners have granted the petition of Springfield township voters for a general election to vote on a proposition to appropriate $10,000 as a subsidy to the Fort Wayne and Butler railway. The election is fixed for September 18 and the votes will be registered at the usual voting places in Springfield township.

MASONS GO TO ROME CITY

FUNERAL OF ADIN W. GAUNTT ON THURSDAY.

Members of Fort Wayne Lodge of Perfection Will Attend—Other Deaths and Funerals.

The remains of Adin W. Gauntt, who died at Knoxville, Tenn., from acute pericarditis, arrived in the city this morning and were taken at once to Rome City in charge of Will H. Peltier. DEFENSE IN POWERS CASE

SOME WITNESSES WHO REVEAL DAMAGING FACTS.

One Witness Smelled Powder Smoke in the Executive Building After the Murder.

Georgetown, Ky., Aug. 7.—When the Powers case was resumed today the prosecution was granted a subpoenea duces tecum on State Auditor Coulter, requiring him to bring his records into court. The is done in an effort to contradict the testimony of Former Auditor Stone, who testified that he discharged W. H. Coulton in December and charged him with stealing $1,000.

The prosecution announced that it expected to show by the record that Coulton was paid his salary in both December and January, and by other witnesses to prove that since that date Stone had recommended Coulton to various people as being entirely trustworthy. The defense was granted an attachment against E. E. Hogg, Coulton's brother-in-law, and attorney who had been subpoenaed but failed to appear as a witness.

W. J. Lewis, of Frankfort, was the first witness heard today. He said that Goebel fell at least ten feet from the spot marked by the prosecution.

George L. Barnes, who was a clerk in the state auditor's office, gave a detailed account of the occurrence on the state capital grounds on the day of the shooting. He heard several persons say the guilty parties were being concealed in the executive building and ought to be blown up. Barnes said that after he went back into the executive building he smelled smoke, which he supposed was the result of the shots. He saw Whitaker arrested by a party of citizens. They took several pistols from him. Prior to the assassination, witness saw a rifle in the vault at the auditor's office. It formerly belonged to Frank Roberts, who had since been appointed a clerk in the census bureau at Washington.

Witness talked with Roberts about the disappearance of the gun, but the court ruled that he could not detail the conversation, neither Powers or Youtsey being present when the talk occurred.

John B. Hurst, of Corbin, testified he was in Frankfort several times in January. The last time he went was with the mountaineers, January 25. More than half of the men were armed.

He contradicted several of the statements of Robert Noakes. Hurst declared that the men in the mountain army were average mountain citizens and closed by stating that he himself had been a delegate to the republican national convention.

"Did you see any of the alleged assassins of Governor Goebel at that convention?" asked Attorney Golden.

The witness said he did not, but afterwards said he saw ex-Governor Taylor there.

"Were there any of the others who were in that armed crowd that went to Frankfort at the Philadelphia convention?" asked Attorney Golden.

The witness said he did not see any such persons there. Ex-Governor Brown objected to the manner of the examination and there was a hot exchange of words between him and Golden.

Hurst admitted that he himself had been indicted and tried for forgery at Knoxville, Tenn. He was asked concerning another alleged forgery at Pineville, but the defense objected.

The court allowed the question to be answered and the witness admitted that he was charged with the crime, but that there was no prosecution.

Some years ago one of the biggest railroad corporations of this country employed a confidential peacemaker, with the idea of preventing suits, as far as possible, for personal damages. It has proved a profitable innovation and is being taken up by other railroads.

"The most ancient and most noble Order of the Thistle," which has just been conferred upon the Earl of Hopetoun, is the smallest of the three great orders of knighthood in point of numbers, and the largest in point of title. It consists of the sovereign and British Princes and 16 knights.

It is officially estimated that the wheat crop of India is 184,000,000 bushels, against 238,000,000 bushels last season, and 227,000,000 bushels the average of five years past.

All Women Know

That ordinary treatment fails to relieve painful periods.

They know Lydia E. Pinkham's Vegetable Compound will and does and has, more than any other medicine.

Every woman knows about Mrs. Pinkham's medicine.

Every woman knows some woman Mrs. Pinkham has cured.

But nine women out of ten put off getting this reliable remedy until their health is nearly wrecked by experiments or neglect!

Then they write to Mrs. Pinkham and she cures them, but of course it takes longer to do so. Don't delay getting help if you are sick.

She has helped a million women. Why not you?

AN UNFORTUNATE MOULDER

BERNARD KRIEG IS BADLY WOUNDED AT BASS WORKS.

J. E. Nohre yesterday succeeded in closing a contract for the Bass Foundry and Machine company to build a tandem compound Corliss engine, with cylinders 12 and 22 by 36 inches, to be shipped to Manila as soon as completed, for service in a big refinery. This machine is an exact duplicate of tandem engines built at the Bass works two years ago and which are now rendering such excellent service in a big establishment in Manila. The Bass company has placed machinery in all of Uncle Sam's new possessions, including Cuba, Hawaii and the Philippines.

The verdict of the coroner will undoubtedly be in accordance with the account of the accident published in The Sentinel the day following its occurrence.

KILLED IN A WRECK.

Chicago, Aug. 7.—George K. Lowell, general superintendent of the Chicago, Indianapolis and Louisville railroad (Monon route) gives out the following official account of the wreck on the road which occurred at South Raub this morning:

"The southbound Monon passenger train No. 3, leaving Lafayette at 12:40 this (Tuesday) morning collided with a light engine at South Raub, ten miles south of Lafayette. James Hudlow, fireman of the passenger, was instantly killed. Henry Whitside, engineer of the passenger, scalded, and Freight Brakeman Eugene McCool bruised. These were all the casualties. None of the passengers was injured as the cars did not leave the track."

ALL ENGINES IN SERVICE.

The eastern division of the Wabash, which for awhile was not very busy, suddenly finds itself with all the traffic it can handle. Four engines, which had been "white-leaded" and were standing at the roundhouse, have been placed into service and four have been borrowed from other divisions. Still the power is inadequate to the demand and other engines will be sent here to help out. The bulk of the freight is grain.

HEALTH CONDITIONS AT SHOP.

Henry Moellering, one of the veterans in the Pittsburg machine shop, was taken quite ill while at work yesterday. He is today unable to leave his home, but it is believed the attack is only temporary and that Mr. Moellering will soon be at work again. Other shopmen absent on account of sickness are H. Beucke, H. J. Meyer, James Burns, Henry Goerken and J. W. Burlage. These absentees are fully offset by the returning ones who had been on the sick list, included being Henry Tonsing, F. X. Miller, Henry Beckness, William C. Zwick and F. B. Lindemuth. The latter was injured two weeks ago.

SEVERAL EXCURSIONS.

The Pennsylvania, the Nickel Plate and the Grand Rapids and Indiana road each had a big excursion today. The former road brought down from Plymouth to Winona Lake a Sunday school excursion party which numbered about 500 people. A special train was sent out for that purpose.

The Grand Rapids and Indiana company ran excursions from the south and from the north into Rome City and carried about 750 people into the resort. This is "republican day" at Island Park and one of the chief attractions is ex-Governor Taylor, of Kentucky. He passed through the city this morning on the excursion train from the south.

The Nickel Plate brought in over 500 people from Leipsic, Ohio, and points this side of that city this morning, the occasion being the annual outing of the Leipsic volunteer fire company. The street car company had fifteen cars in waiting at the depot and the excursionists boarded them and went to Robison park, where they are enjoying themselves. The train arrived at 9:45 o'clock and will leave for Leipsic at 6:30 this evening. It consisted of ten coaches and a baggage car, was hauled by engine 21, with Engineer Charles F. Merriett at the throttle, and was in charge of Conductor Hart. The Nickel Plate has been very successful in all its excursions to this city this summer and District Passenger Agent Asterlin no doubt finds considerable gratification in this fact, since it is due in a great measure to his effort in that direction.

GEIGER IS ON DUTY.

William F. Geiger, late agent for the Adams Express company, has been duly installed in his new office, clerk for Purchasing Agent Frank Brown, of the Pittsburg. He arrived in the city Sunday evening and yesterday commenced work.

AFTER THE MONON.

Indianapolis Journal: "It has been currently reported in New York financial circles that J. P. Morgan & Co. have sold their holdings in the Monon railroad to the Pennsylvania and Vanderbilt interests. Such rumors are not new, but they come this time with more than the usual authenticity, and some credence is being given them. It is said that the Pennsylvania wants a short line to Chicago from Indianapolis, and the Monon is the shortest of all. The Pennsylvania now leases the Lake Erie and Western from Indianapolis to Logansport, and does not own a through line to Chicago. If it acquires the Monon it will have things its own way. The Vanderbilts also want the Monon to keep it from interfering with the Big Four."

A MOULDER BADLY BURNED.

Bernard Krieg, a moulder at the Bass works, residing on Lafayette street, was the victim yesterday afternoon of an accident that will cause him many days of pain and probably disable him for several weeks. While carrying a crucible filled with molten metal, he slipped and fell and the hot contents of the vessel spilled over his feet, burning one of them most seriously. The city ambulance was called to convey the injured man to his home, where he received all possible aid for alleviating the pain of the wounds.

INDUSTRIAL NOTES.

William Turner, a train crew caller for the Nickel Plate, has returned from Niagara Falls, where he spent two weeks.

Machinist J. T. Lewis commenced work in the electric works this morning. He was employed there two years ago.

W. J. C. Aumann, of the Pittsburg shops, is off duty today on account of injured eyes. He got some emery dust in the optics.

Harry Fitzpatrick has resumed his old place, that of wheel inspector for the Pennsylvania shops, after an absence of several months.

Ed Challenger, clerk in the Pennsylvania shops, is preparing for his summer vacation. He will go to Rome City next Friday, expecting to remain two weeks.

Shop Draughtsman H. S. Borhek and Round House Foreman George Telley, of the Pittsburg, are among the sick and absent ones today. Neither case is serious.

Walter Stanley, caller of Nickel Plate crews, is taking a couple days' recreation. He is at Claypool fishing today. William Turner is calling crews in the meantime.

Mrs. McMahon, of Broadway, wife of Passenger Conductor Sylvester McMahon, of the Pennsylvania, has so far recovered from her recent illness as to be able to attend to her household duties.

Mrs. Harmon, of Madison street, wife of the patternmaker at the Western Gas Construction works, has returned home, after an absence of three weeks, during which she visited in Chicago.

C. R. Lunas has taken a position as brakeman on the Nickel Plate. He is a telegraph operator and for some time was on the extra list. But he was not sufficiently employed, hince his change of occupation.

Train crews on the Boston and Albany were recently given an increase in wages, and as they get better pay than men in the same lines on the New York Central they fear a reduction will be ordered when the road passes to the Central.

Work will be begun at Bellefontaine on a building to be occupied by the railroad branch of the Young Men's Christian association. The contractor receives $5,500 for its erection, and President Ingalls, of the Big Four, gave half the sum required.

Conductor Sylvester McMahon, of the Pittsburg, rescued a little boy from a runaway accident and thus averted serious injury to the little fellow. Mr. McMahon grabbed the lad just as he was going over the dashboard against the frightened animal's heels.

Grant Glenson is engaged in constructing a merry-go-round for Harry Templar, of the electric light offices, which will be placed in service at the fairs this fall when finished. The merry-go-round will be an expensive affair and will be operated by two small steam engines. Mr. Gleason will have charge of it.

Nickel Plate engine 153 has gone to the shops for general repairs.

Al Buer, Nickel Plate engineer, is on duty again, after a visit of several days with his brother in Chicago.

Road Supervisor A. B. Adams and Bridge Superintendent W. S. Danes, of the Wabash, are in the city today.

It is official announced that on September 8 the Southern Indiana will run its first passenger train into Terre Haute.

Henry Kammeyer, engine hostler at the Nickel Plate round house, has recovered from an illness which kept him from work a week.

Conductor Huwley, of the Nickel Plate, is enjoying the first lay-off of the year. He will spend a few days in visiting friends in another city.

Jacob Hilgemann, a construction man, has returned from Detroit, where business for the Fort Wayne Electric company called him several days ago.

One of the Baltimore & Ohio's new monster freight engines on Friday hauled in one train through Akron, Ohio, 101 cars, twenty-two loaded and seventy-eight empty.

Oliver J. Hebert, jr., night clerk in Foreman P. J. Scheid's office at the Pittsburg roundhouse, has returned from Chicago, where he spent ten days in viewing the sights.

Leo Boyer, a laborer in the Wabash yards, was summoned to Lima this morning by a telegram stating that his sister was very sick and no hopes of her recovery were entertained.

It is believed that the next move of the Illinois Central will be to acquire a line into Nashville. It is thought this road is back of the building of the Tennessee Central.

Last Thursday the Continental limited on the Wabash was hauled from Ivesdale to Millmine, 10.8 miles, in eight minutes, or at an average speed of eighty miles an hour.

A. Wilson, plumber at the Pittsburg shops, who was the guest of his brother-in-law, Ed France, at Rome City several days, returned last night and this morning resumed work in the shops.

R. Premmer, who was visiting out of the city, and T. H. Gallivan, who was attending to some private affairs about town, reported for duty on the Nickel Plate yesterday. They are brakemen.

The Evansville and Terre Haute is hauling melons north by the trainload. Last year this road handled over 1,800 carloads of melons, and this year the business will be in excess of that of 1899.

Fireman C. Jerome, of the Nickel Plate, has gone to Cleveland to join his wife, who went there a week ago. They will return here the first of next week, when Mr. Jerome will resume his duties on the road.

Some of the Vanderbilt fast freight lines are accused of absorbing Chicago switching charges which shippers are required to pay. It is equivalent to cutting rates, because it is done to influence business.

Engineer M. McCarthy and Fireman T. Maughan have been assigned to Nickel Plate engine 98, which is just out of the shops after general repairs. They will have a through freight run on the west end of the road.

Mr. Patterson and J. Gribbons, machinists, took positions in the Pittsburg shops this morning. Mr. Patterson is a Fort Wayne man. He learned his trade in the Pennsylvania shops in this city, but for ten or twelve years has been working in the company's shops in Wellsville.

G. J. Wirth has returned from Sandusky, Ohio, where he spent a two weeks' vacation with relatives. He resumed work in the Pennsylvania telegraph office yesterday. Operator C. A. Robbins is now taking a vacation.

The 5 to 10 per cent. increase in wages of the engineers on the Southern railroad goes into effect on August 20. This is simply a restoration of the cut that was made in the wages in 1893. There are 780 engineers on the Southern.

The Fort Wayne Electric company is preparing to install an electric light plant at Frankfort, Ind., and today shipped a car load of electrical machinery to that place. Frankfort is now the official headquarters of the Toledo, St. Louis and Western road.

Thomas Welsh, the veteran watchman, resumed charge of the blacksmiths' gate at the Pittsburg shops this morning, after being sick in St. Joseph hospital for a few weeks. Casper Lehmkuler, who had charge of the gate during Mr. Welsh's absence, has returned to his duties at the forge.

Indianapolis Journal: "The Pennsylvania Railroad company, without any great display, is increasing the pay of its men at several important points. The Pennsylvania lines made no reduction in pay of men when other roads did, and as a consequence any advance now made is appreciated by those benefited."

The inter-state commerce commission will employ inspectors to see that the law requiring railroads to have safety appliances on all freight cars is carried out. Only 1,000 of the 54,000 cars operated by the Baltimore and Ohio have not been supplied, and these will not be hauled until the improvements are made. The Pennsylvania has also sidetracked all cars not fitted according to law.

The resignation of Local Conductor Charles, on the west end of the Nickel Plate, has resulted in several changes. Conductor Denbow has been transferred to the Knox and Stony Island runs and Conductor VanMeter has succeeded Mr. Denbow on the local between this city and Knox. The place in the through freight service vacated by Mr. VanMeter has been given to Conductor J. C. House, who was on the extra list.

ARMY TRANSPORT ASHORE.

New York, Aug. 7.—The Atlas line steamer Alene, Captain Long, which arrived today from West India ports, reports the United States army transport McPherson, from Santiago for New York, ashore at Fortune Island. From what could be learned on board the Alene, it appears the McPherson was proceeding at full speed on the 22d inst., and more than two miles out of her course, when she went ashore. In order to lighten her the troops she carried, consisting of over 400 men of the Fifth infantry, were landed on the island. A considerable quantity of stores were also transferred to the shore. Kedge anchors were put overboard. The steamer then attempted to back off into deep water, but without success. The Alene made fast to the transport and hauled steadily for six hours, but failed to float her. Cable reports from Nassau state that the transport was floated on the 5th uninjured and proceeded.

DR. LIEBKNECHT DEAD.

Charlottenburg, Aug. 7.—Dr. Liebknecht, the well known member of the reichstag and one of the leaders of socialism in Germany, is dead. He was born at Geissen in 1826 and was editor of the Vorwaertz, the socialist organ.

PREPARE FOR INSTITUTE.

The joint institute of the farmers of Marion and Pleasant townships will be held in the grove at the M. E. church on Thursday, August 30. A meeting was held last Saturday evening at Poe for the purpose of arranging a program, and the election of officers resulted as follows:

President—Charles Dalman, of Pleasant township.

Secretary—Nettie E. Hubler, of Marion township.

OFF TO A PICNIC.

Today a large Sunday school picnic is being held in Robinson's grove in Eel River township, and quite a number from the city left this morning to be present. It is a union affair, and it is expected that at least ten Sunday schools will be present. Among the speakers is W. F. DeVilbiss, of Washington township.

CELEBRATING A BIRTHDAY.

Joseph Harter, the well known blacksmith at 170 West Main street, is celebrating his seventy-fifth birthday anniversary today and many friends are extending congratulations. Mr. Harter came to Fort Wayne fifty years ago from Starke county, O., and is remarkably active and vigorous.

SUNDAY SCHOOL PICNIC.

The Sunday school of Salem Reformed church in Perry township, twelve miles north of the city, will give a picnic in Garman's grove August 25. Fourteen Sunday schools have been invited, and it is expected that a very large crowd will be in attendance. It is hoped that a number of speakers from this city and elsewhere will be in attendance.

GOES TO SALEM CENTER.

Dr. O. B. Sheets, who recently graduated from the Fort Wayne College of Medicine, has determined to locate at Salem Center, in Steuben county, for the practice of his profession. Dr. Sheets is now in the city purchasing his office equipment, and will begin practice within a few days.

Salesroom 98 Calhoun street. Store open evenings.

THE DOUGLAS SHOE.

The best advertised and consequently the best known shoe in the world today is undoubtedly made by the W. L. Douglas Shoe Co., of Brockton, Mass. The one idea of this company has always been to sell a shoe for $3.50 which equals in every way the $5 shoes of any other concern. They are able to do this on account of there being no middle man's profit, as the goods are sold direct from the factory to the wearer. In 60 of the principal cities of the country they have their own retail stores. The goods are made in all sizes and widths, and few shoes equal them for style and durability.

The factory at Brockton employs over 1,100 hands, and all labor troubles are settled by the state board of arbitration. Nothing but union labor is employed, and pay about the best average wages of any shoe workers in the United States. The factory pay roll amounts to $17,135 per week. This company makes shoes for men only, and it is their proud boast that over one million men wear them.—Denver (Colo.) Post.

ICE CREAM SOCIAL

Will be given tomorrow evening, Aug. 8, by Young Ladies' Society of the Church of the Precious Blood, cor. Barthold and Fourth streets. The lawn will be lighted with acetylene gas. There will also be a fine musical program.

City Band and Eintracht Concert at Swinney Park August 8th. No admission. Plenty of seats, ice cream, etc.

If it's a good thing SLAVEY'S have it.

NO TROUBLE

To sell the STERLING RANGES. They almost sell themselves to every intending range-buyer who sees them. The Sterling embodies more ideas of range construction than any other range built, and that's no idle talk. We're the agents and the stove is here to look at. Price, $28.00.
